April 5, 2019	Open date. Official submission period begins.
May 10, 2019	Load/Due date. Colleges must load data. This data is used for input to FTE enrollment Plan, Capital Outlay FTE Projections, and Fundable Post-Secondary Industry Certifications.
May 13, 2019	If data has not been loaded, the Reports Coordinator is notified with a copy to the college's President.
June 14, 2019	Close date. Submission period ends. Winter/Spring End-of-Term data and data from any prior term resubmissions must be loaded
June 17, 2019	Certification forms due. If data has not been loaded, the college's President is notified with a copy to the Reports Coordinator.
June 18, 2019	If certification has not been received, the college's President is notified with a copy to the Reports Coordinator.
June 18, 2019	First data verification period begins. If errors are found or grade updates are required, data resubmission will be allowed through written request by the Reports Coordinator.
June 21, 2019	First data verification period ends. Data must be loaded and certification form submitted. If data has not been loaded and/or certification form not received, the college's President is notified with a copy to the Reports Coordinator.
June 24, 2019 - June 28, 2019	Annual data verification period. Data resubmission allowed only through a request signed by the college's President. Any data submitted during this period must be recertified.
July 1, 2019	Annual close. No data resubmission will be accepted.

Annual (4E) Financial Aid and Program Industry Certification Data Submission Calendar

September 20, 2019	Open date. Submission period begins.
October 11, 2019	Load/Due date. Colleges must load data.
October 14, 2019	If data has not been loaded, the Reports Coordinator is notified with a copy to the college's President.
October 25, 2019	Close Date. Submission period ends. Annual End-of-Term data.
October 28, 2019	Certification form due. If data has not been loaded, the college's President is notified with a copy to the Reports Coordinator.
October 29, 2019	If Certification Forms have not been received, the college's President is notified with a copy to the Reports Coordinator.
October 28, 2019 through November 15, 2019	Data verification period. Data resubmission allowed only through a request signed by the college's President. Any data submitted during this period must be recertified.
November 18, 2019	Annual close. No data resubmission will be accepted.

NOTE: While Annual Financial Aid and Program Industry Certification data submission dates coincide with each other, they are two separate data submissions.

Procedures and Definitions

The Student Database Data Element Dictionary is not intended as a complete user manual. Instead, it defines the data elements and table values collected from the colleges during the submission year. Changes from the MIS Advisory Task Force (MISATFOR) meetings and due to legislation are made annually.

Purpose

The 1987 Legislature, through Special Appropriation 369A, directed the Division of Florida Colleges and the Florida colleges to develop and implement a statewide comprehensive management information system linking all levels of the state education system. The intent is to establish a comprehensive database of information that will co-reside with the Division of Public Schools Information Database and the State University System Database to provide integrated information at the state level for educational decision-making.

The Student Database was designed in accordance with the General Education Provisions Act 20 USC 1221(e-1) Proviso Language.

Security and Privacy

Beginning reporting year 2017-18, mainframe data submission and processing has ended, and all data will be submitted to and be processed using the server environment. Further, the server has become the system of record.

The Florida Department of Education has implemented a secure file transfer environment via a commercial off the shelf (COTS) product from TIBCO Software, Inc (hereafter called TIBCO). Having been granted access to the CCTCMIS specific TIBCO transfer environment and using the college's Single Sign-on credential, and if a college has FTP software that is capable of sending and receiving data via secure FTP, a college can securely transfer data to the Florida Department of Education via TIBCO. TIBCO ensures data security as it moves submitted data across the DOE firewall where the data is then processed. Once the data is processed, all resultant reports are then moved securely back across the firewall into the college's secure area, ready for download via secure FTP.

To ensure the security and integrity of an individual institution's data on the server, a college will only be able to send and receive data and reports that are specific to that college. It is imperative that colleges maintain password security in order to ensure that personally identifiable information is not compromised.

For specific details on submitting data for server processing, please refer to the *Data Submission Procedures Guide*.

Submission Process

College data are edited by programs that check for the following:

1. **Valid fields.** A missing or invalid value in any data element in any given record type causes the rejection of the record. All missing or invalid values will be recorded on the Critical Error Report.

Records with any of the three following problems (Items 2-4) will be edited to expedite the error correction process. All edit errors will be listed on the error report.

2. **Duplicate Records.** Records containing duplicate unique keys causes the rejection of all duplicated records.

The following two cases (numbers 3 and 4) apply to record types 2 through 7 that are rejected because of problems with their corresponding demographic record.

3. **Missing Demographic Record.** Any record for which there is no corresponding demographic record is rejected.

4. **Duplicate Demographic Record.** Any record for which its corresponding Demographic record has duplicates is rejected.

5. **Rejected Demographic.** Any record that had its corresponding demographic record rejected because of an edit error is likewise rejected.

The edit process runs 12 times hourly, in accordance with the schedule published in the *Data Submission Procedures Guide*. The edit reports package is delivered shortly after the edit process run completes. The following edit reports are generated during the edit process:

ERRLST, ERRSUM, ERRREC, FREQRP, and DUPLCOM

6. Rejected Annual Industry Program Certification – The following are the files that are generated:

ERRLST, ERRSUM, ERRREC, and DUPLCOM

If the college's file generates no critical errors, that colleges data will be queued up for the next scheduled verification reports process run. The verification reports process runs four times daily.

NOTE: *If a field is not required, then the edit criteria do not apply (i.e., a field in a beginning-of-term file).*

Term Submission

The Student Database has nine record types:

Demographic – Record Type One,
Entry Level/Exit Test – Record Type Two,
Acceleration – Record Type Three,
Program – Record Type Four,
Completion- Record Type Five,
Course – Record Type Six,
Economically Disadvantaged – Record Type Seven
Financial Aid – Record Type Eight
Program Industry Certification – Record Type Nine.

The Student Database is reported by term during four submission windows:

Submission	Term Number	Term Description	File Name
I.	1E	Summer End-of-Term	CCxx.STU.STUDENT.T1Eyyyy.PROD.TXT
	2B	Fall Beginning-of-Term	CCxx.STU.STUDENT.T2Byyyy.PROD.TXT
II.	2E	Fall End-of-Term	CCxx.STU.STUDENT.T2Eyyyy.PROD.TXT
	3B	Winter/Spring Beginning-of-Term	CCxx.STU.STUDENT.T3Byyyy.PROD.TXT
III.	3E	Winter/Spring End-of-Term	CCxx.STU.STUDENT.T3Eyyyy.PROD.TXT
IV.	4E	Annual Financial Aid	CCxx.STU.STUDENT.T4Eyyyy.PROD.TXT
V.	4E	Annual Program Industry Certification	CCxx.STU.INDCERT.T4Eyyyy.PROD.TXT

Where xx is the college number and yyyy is the reporting year.

Database Criteria

Include all college students who were enrolled in the term or who had either a completion or an acceleration record for the term. Do not include students who were exclusively Recreation and Leisure students.

A student must have only one Demographic Record for each term enrolled, but may have multiple records for any other record type, depending on their enrollment situation.

A Demographic Record is required for each student. File submission requires either a Demographic Record with an Acceleration Record, a Demographic Record with a Completion Record, a Demographic Record with a Course Record, or a Demographic Record with a Financial Aid Record. The other record types are not required unless they are pertinent for a given student. For example, if the student has no financial aid (Record Type Seven), then that record should not be submitted for the student. If the student only took one Entry Level subtest such as math, only report one record for the subtest taken; this also applies to the Acceleration Tests (Record Type Three).

Two record types require the reporting of aggregate data for a term: Record Type Three (Acceleration) and Record Type Eight (Financial Aid). If, for example, the student has several loans of a given type, add the separate loan amounts and report the total.

Acceleration – Hours (DE 1202) requires the reporting of aggregate data for a term on the Acceleration Record (Record Type Three). For example, if the student has more than one test in a given portion or subtest, add the hours and report the total.

After a given data file runs without generating any critical errors, or a Force Load is processed, all verification reports are generated automatically. When the data in the End-of-Term file is processed without error, it supersedes the beginning-of-term file for a college. This occurs for the Fall and Winter/Spring terms. The process occurs automatically when the end-of-term file runs without generating any critical errors.

Record Type Descriptions

Demographic (Record Type 1)

This record contains personal information about each student. Each student will have only one demographic record for each term in the reporting year.

IMPORTANT: *Students who are exclusively Recreation and Leisure students should not be reported.*

Students who take one or more Recreation and Leisure courses as part of a degree or vocational program may be reported. However, these courses are not required and are not processed.

Disabled Classification (DE 1002) is linked with the Verified Disabled Classification indicator (DE 1035); report accordingly.

Athletically Related Aid Indicator (DE 1042) is reported with the Annual Financial Aid – Record Type 8 submission. For regular term submissions, report 9 (*not applicable*).

To help colleges code the High School Code (DE 1007), State at Time of First Entry (DE 1018), Nation of Citizenship (DE 1033), and Transfer Institution (DE 1034), CCTCMIS staff creates files containing the valid codes to use for each data element before the Submission Period Start Date.

For the National Reporting System (NRS) on Adult Education, federal grants are awarded on a geographic basis. To reconcile federal grant fund allocations with performance on a county level, colleges need to report the actual residence of adult students. In order to accomplish this requirement with the least amount of impact, colleges must send the United State Postal Service ZIP code at the end of the Student Demographic record format. This zip code should be the zip code of the student's current residence; colleges are encouraged to send the nine-digit "zip+4."

Due to the 2011-12 reporting year implementation of the Office of Management and Budget's (OMB) 1997 Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity, Data Element 1003: Ethnic Origin was removed as a reporting item from the Student Demographic record format. However, Ethnic Origin still exists within the Student Database for converting race and ethnicity data for use in IPEDS reporting.

Entry Level\Exit Testing (Record Type 2)

This record contains information about the student's entry level/exit test(s). Report only the entry-level test used for placement purposes. For example, report the algebra score that determined the student should take remedial math courses, NOT the arithmetic score that helped the college determine at which LEVEL of remedial math the student should begin.

Acceleration (Record Type 3)

This record contains information about the student's acceleration examination or method. Report the acceleration information for a student in the term the reporting institution accepts the acceleration credit.

NOTE: *This record type is not required for Beginning-of-Term. Report all acceleration credit previously accepted by the reporting institution in the student's first term enrolled. After the student's first term enrolled, report the acceleration credit in the term the reporting institution accepts the acceleration credit.*

Program (Record Type 4)

This record contains information about the Program(s) of Study in which the student is enrolled at the college.

To help colleges code the Program of Study – CIP (DE 2002), CCTCMIS staff creates, every term submission, two files: one with the valid CIP number (10 digits) and a second file with the combination of the six digit CIP code and the college number for the valid Baccalaureate programs. Adult Education Programs need a valid program record. For example, if the student is enrolled in two different Adult Education courses (DE 3001 Course-Information Classification Structure) then the college must report two program records to validate the course records.

The Program of Study – Award (DE 2001) should be the student's award intention at the time of registration. The Program of Study – Level (DE 2005) is the program of study level determined by the college following the student course work.

Locally Inactive Program Flag (DE 2009) is a code to flag the inactive programs at your institution (college is not accepting enrollments), but the programs are may still be active at a state level.

Completion (Record Type 5)

This record contains information about the degree, certificate, or diploma awarded to the student who completed a program during the reporting term. A student may have multiple completion records. Completion duplications are not allowed between terms and years. A duplicate completion is one reported for the same student using the same CIP code (ten-digit completion code) during both the current and previous year submissions.

For the OCP process, the Apprenticeship OCP is coded 'P' in the Completion Degree Awarded (DE 2103) to ease the OCP recognition process.

For the LCP process, Adult Education Programs, the college will need a valid completion record. For example, if the student gets an LCP then there must be a valid test record and course record to be able to validate the completion record.

To help colleges code the Completion Degree Awarded (DE 2103), CCTCMIS staff creates, every term submission, a file with the different valid degree combinations.

Locally Inactive Completion Program Flag (DE 2107) flags the inactive completion programs at an institution (i.e., college is not accepting enrollments), but the programs may be active at a state level.

NOTE: *This information is not required for beginning-of-term submissions.*

Course (Record Type 6)

This record contains the information about the courses in which the student is enrolled during the reporting term. A student may have multiple course records.

Course-Information Classification Structure (DE 3001) is a five-digit code used to identify the course subject matter content. Colleges should be very careful coding this data element. For example, ICS code 15001 identifies EPI courses, and the FTE process uses ICS code 15001 to select the courses for the EPI program area.

FTE Flag (DE 3018) identifies the courses exempted from Funded FTE. College should use value 'Z' if the course is not exempted. **The Funded FTE process selects only the courses with a value 'Z'.**

Career and Technical Education Instruction: For a public educational institution that has been fully funded by an external agency for direct instructional costs of any course or program, the FTE generated shall not be reported for state funding (§1011.80 (5)(d) F.S.).

Community College Program Fund: When a public educational institution has been fully funded by an external agency for direct instructional costs of any course or program, the FTE generated shall not be reported for state funding (§1011.84 (1)(f) F.S.).

Except for Continuing Workforce Education (CWE), courses fully funded by an external agency for direct instructional costs cannot be reported. Although CWE is 100% fee supported (§1011.80 (5)(a) F.S.), CWE courses will continue to be reported until the Enrollment Estimating Conference decides it is no longer needed. CCTCMIS will exclude CWE from calculations of Funded FTE. Recreation and Leisure courses cannot be reported.

Course Withdrawal. Course withdrawal is based on student withdrawal information from an institution for treatment of financial aid funds in accordance with the Code of Federal Regulation 668.22, the

Information for Financial Aid Professionals (IFAP) Student Financial Aid Handbook, and U.S. DOE staff, and is used by the Office of the Auditor General for sampling Federal Title IV financial aid data.

Withdrawal happens after the student has begun attendance in the course and before the end of the course. Courses “dropped” by a student during the Drop/Add period, courses for students reported as a “No Show” during the no-show reporting period, courses deleted for non-payment, or courses that were cancelled are not reported on the Student Database. These courses are not “Official” or “Un-official” withdrawals. Colleges are required to take attendance, but are not required to have attendance taken by an outside entity, such as an accrediting or state agency.

Official Withdrawal. Official withdrawal is based on the college’s published policy for withdrawal for both student initiated and administrative withdrawals.

Student Initiated Withdrawal. Student Initiated Withdrawal is defined as the student providing official notification, either in writing or orally, to the appropriate office that he/she intends to withdraw. Official notification may also be given by an individual acting on the student’s behalf if the notification meets the college’s requirements. Intent to withdraw means that the student indicates he or she has either ceased to attend the course and does not plan to resume academic attendance, or believes at the time he or she provides notification that he or she will cease to attend the course.

Administrative Withdrawal. The college may expel, suspend, or cancel a student’s registration in a course based on the college’s withdrawal policy. The college may “officially” withdraw a student for non-attendance or other reasons, if the college has a documented uniform policy to do so.

Un-Official Withdrawal. Any other withdrawal where there is no college policy or the policy was not followed.

NOTE: *The Course Grade (Data Element 3007) is only required for End-of-Term data submissions.*

Economically Disadvantaged (Record Type 7)

This record contains need-based financial aid information. It is designed to collect data to identify Economically Disadvantaged students for Career and Technical Education and Perkins reporting.

A student may have more than one financial aid record per term. A record will be reported for each Award Type (DE 3102) the student receives.

Data will be reported for students who were awarded need-based financial aid, whether or not the student received the aid. Data reported will be for aid types: Pell, SEOG, State Grant, NDSL, Federal Insured Loan, State Insured Loan, and Federal Programs College Work/Study.

Need Based. The student must meet financial need criteria as determined by the Financial Aid Office using a federally approved need analysis formula.

NOTE: *This information is not required for Beginning-of-Term.*

Fundable Program Industry Certifications (Record Type 9)

This record contains information about Program Industry Certifications awarded to the student during the reporting term. A student may have multiple certifications records. Certification duplications are not allowed between terms and years. A duplicate certification is one reported for the same student

using the same Program Industry Certification Number (DE 3302) during the current and previous year submissions.

The student must have been enrolled in a course and have a passing grade ('A', 'B', 'C', 'D', 'P', 'S', 'U', or 'X') during the year. The course cannot be a Continuing Workforce course (Course – Information Classification Structure 1.21.03, 1.22.03, 1.23.03, 1.24.03, 1.25.03, 1.26.03 or 1.27.03) in order to qualify for the Fundable Industry Certification funds.

Below is an example of how a student is funded if a course has not been taken in current processing year.

If the student has not taken a course in current year, which he/she receives the Fundable Industry Certification the college needs to look at the following: A course must be taken in the prior year with the above criteria and the Fundable Industry Certification must be a fundable certification in the prior year in the PINDCER table.

A demographic record must be submitted with the industry certification record if the student was not enrolled during the term in which the industry certification is being reported.

The SDB Fundable Industry Certification is designed to collect data for all of the Fundable Industry Certifications in Term 1 (Summer), Term 2 (Fall) and Term 3 (Winter/Spring).

NOTE: *This information is not required for beginning-of-term submissions.*

Certificate of Professional Preparation

This is a certificate only for baccalaureate degree holders. The State Board of education Rule 6A-14.0030, F.A.C., Instruction and Awards in Community Colleges, authorizes colleges to provide instruction and to confer degrees, certificates, and diplomas. Section 7 of the rule outlines requirements for a Certificate of Professional Preparation:

- Provides college level professional instruction of between nine and 30 credit hours of courses and course equivalent modules.
- Prepares baccalaureate degree holders for licensure, certification, credentialing, examinations, or other demonstrations of competency necessary for entry into professional occupations.
- Student earns competency-based postsecondary institutional credit, not intended for transfer outside of The Florida College System. However, if the college is authorized to award a baccalaureate degree in the subject area of the Certificate of Professional Preparation, then the college may award upper division credit in lieu of institutional credit.
- The Program requires approval by the Department of Education.

By State Board rule, these programs require Department of Education approval. Therefore, the Division of Florida Colleges has developed a procedure and an application form, including reporting requirements.

Baccalaureate Programs

"2+2" System

Students will be reported in the Admissions and Student Databases based on the "2+2" System. The "2+2" System separates students into Lower Division and Upper Division students. Students are reported as AA, AS, etc. for freshmen and sophomores (lower division) and baccalaureate for juniors and seniors (upper division).

The basis for reporting students as "2+2" is from §1004.73 F.S. (2008) which stated:

(2)(b) St. Petersburg College shall maintain the mission and policies of a Florida community college, including the open-door admissions policy and the authority to offer all programs consistent with a community college.

(3)(a) St. Petersburg College shall maintain separate records for students who are enrolled in courses classified in the upper division and lower division of a baccalaureate according to the statewide course numbering system. A student shall be reported as a community college student for enrollment in a lower-division course and as a baccalaureate degree program student for enrollment in an upper-division course.

§ 1007.33 F.S. (2008), which authorized other colleges to offer baccalaureate programs, did not specify the separation of lower and upper division students. After § 1004.73 Florida Statutes was enacted, the Division of Florida Colleges staff met with staff from the Governor's Office, House, and Senate to discuss how the baccalaureate data would be reported. The consensus of the Governor's Office, House, and Senate staff was all the colleges offering baccalaureate degrees would be treated the same and that the intent of the legislation was to report data based on the "2+2" system, where the baccalaureate data

would only be upper division. The Legislature intends to fund the lower-division college credit courses and programs as a community college. The Legislature intends to fund the upper-division courses and programs as a baccalaureate degree institution. While §1004.73 F.S. has been repealed, it is still the intent of the Legislature and the Division of Florida Colleges to keep the “2+2” system.

The Division of Florida Colleges staff worked with St. Petersburg College, Miami Dade College, and Chipola College to implement the reporting in the Community College and Technical Center Management Information Systems (CCTCMIS) Databases. These colleges agreed with the process of reporting data as a “2+2” system. Implementing the data reporting was discussed and approved by MISATFOR.

All applicants for a Baccalaureate Program must be reported in the Admissions Database. All students admitted into a Baccalaureate Program and enrolled in courses must be reported in the Student Database.

All reporting of Baccalaureate data will be done through CCTCMIS.

Database Requirements

- Students must have an AA degree, an articulated AS degree, or 60+ hours toward a degree.
- The Program of Study – Award Type (DE 2001) must be Baccalaureate Degree (TV = C) or Upper Level Non-Degree Seeker (TV = H). The Program of Study – Level (DE 2005) must be Baccalaureate Degree (TV = C), Upper Level Non-Degree Seeker (TV = H), or BS/BA Education – Transitional (TV = E).
- The Completion Degree Granted (DE 2103) must be Baccalaureate (TV = C).
- Program of Study CIP (DE 2002) and Completion – CIP (DE 2101) will be assigned in collaboration between the college and the Florida College System. Once a CIP has been assigned, the CIP will be added to the CCTCMIS Baccalaureate CIP table and used in edits of the data elements.
- The ICS (DE 3001) for all Upper Division courses must be Advanced and Professional (TV = 1.1####). By law and rule, vocational courses only apply to 2 year degrees and the community colleges offering bachelors are under the “2+2” system. In addition, the universities only offer A&P courses. Therefore, it was decided by the Division of Florida Colleges, CCTCMIS, and the community colleges that all upper division courses are A&P. Colleges may work through the Division of Florida Colleges to coordinate with other colleges to assign ICS codes.
- Enrollment in Adult General Education (ICS = 1.3####) courses by Baccalaureate Program students cannot be reported.
- The Course Level (fourth character) in the Course Identifier (DE 3008) must be either 3 or 4.

State Reporting

Some standard state reports will combine Lower and Upper Division data. These reports include Annual Unduplicated Headcount and Course Number Match. Some standard state reports will separate Lower and Upper Division data. These reports include the AA1A, Completions (C2), FETPIP, and FTE reports. FTE Estimates and Projections will both include Lower and Upper Division data. Some state standard reports exclude Upper Division data. These reports include Workforce and Strategic Imperatives.

Federal Reporting

Some federal standard data submissions exclude Upper Division data. These include Perkins and NRS.

For IPEDS reporting, colleges with baccalaureate programs will be reported as four-year institutions. IPEDS reporting will include Upper Division data. All changes to data except Institutional Characteristics will be provided by PERA to IPEDS with review by the colleges.

- Institutional Characteristics: The College will enter baccalaureate degrees under degrees offered by the college, either the first reporting year the program is offered or the reporting year of the first Fall term the program is offered.
- Enrollment Survey: Upper Division data will be reported with the Lower Division data.
- Selected Fields of Study: Required every other year, in even numbered years, enrollment by selected programs is collected for the four-year institutions. CCTCMIS reports every year, starting the first year baccalaureate degrees are reported on the Institutional Characteristics.
- Graduation Rate Survey: For institutions reporting baccalaureate degrees on the Institutional Characteristics, the six-year follow-up is used instead of the three-year follow-up for two-year institutions.

Annual Financial Aid Submission

Purpose

The Annual Financial Aid Annual submission is designed to collect data compatible with the State University System and the Office of Student Financial Aid. The data will be used to report on Financial Aid at the Community Colleges and for inclusion in the Education Data Warehouse.

Record Types

The Annual Financial Aid Annual submission has two record types:

- Demographic (Record Type 1)
- Financial Aid (Record Type 8)

The data will be reported for the academic year (Fall, Winter/Spring, Summer), by term.

Due Dates

The Annual Financial Aid data will be submitted once at the end of the academic year, after the end of the Summer term.

Database Criteria

Data will be reported for students who were paid financial aid (dispersed). Students who were awarded financial aid, but did not receive the aid will not be reported. Data will be reported in the term in which the aid was dispersed, even if the aid was for course(s) taken in previous terms.

Financial Aid data reported will be the aid generally processed by the colleges through their financial aid systems. Data will not include Veterans Benefits, Federal Vocational Rehabilitation, State Vocational Rehabilitation, State Fee Waivers, Institutional short-term loans, nor Institutional student employment. Financial Aid provided through community college foundations is considered private aid, and will not be reported.

Record Type Descriptions

Demographic (Record Type 1). This record contains personal information about each student that received financial aid. Each student will have one demographic record for each term the student received financial aid in the academic year. Only selected demographic data elements will be required.

Financial aid (Record Type 8). This record contains financial aid information. A student may have more than one financial aid record per term. A record will be reported for each award type (DE 3208) the student receives.

Matching Grants. When a grant requires matching funds, the source for the aid, including the matching money from the institution, will be reported as the agency that authorized the aid. For example, the First Generation Matching Grant is authorized by the State. All the aid dispersed will be reported as S (*State*) in DE 3207 (*Source of Financial Aid Funds*).

Annual Program Industry Certification Submission

Purpose

The Annual Program Industry Certification Annual submission is designed to collect data that is used for Perkins reporting.

Record Type

The Annual Program Industry Certification submission has one record type:

- Program Industry Certification (Record Type 9)

Due Dates

The Program Industry Certification data will be submitted after the end of summer term, even if the student finished in any of the other previous terms.

Database Criteria

Data will be reported for students who have finished taking an Industry Certification whether or not the student passed the industry certification or technical assessment taken/attempted.

The Perkins Industry Certification data will be submitted after the end of the current reporting year's summer term using the prior reporting year's summer, fall, and winter/spring terms as well as the current reporting year's summer term.

Record Type Descriptions

Program industry certification (Record Type 9). This record contains program industry certification. A student may have multiple certifications for one CIP per term. A record will be reported for each Industry Certification Number (DE 3302) the student receives.

Data Element Dictionary**

Notes on Data Element Edit Descriptions

Data element edits are written to be read as logical tests, as well as provide a programming reference. In the Data Element Edit descriptions, the following symbols may be encountered:

EQ	Equal to
NE	Not Equal to
GT	Greater Than
GE	Greater Than or Equal To
LT	Less Than
LE	Less Than or Equal To
IN (list)	Valid value or values exist in the list provided
NOT IN (list)	Valid value or values do not exist in the list provided
NULL	No value (blank or missing)

For the sake of brevity, some edit descriptions may contain hyphenated value ranges in a list (e.g., Course – ICS (DE 3001) begins with 1.3 or IN (1.21.03-1.27.03, 15001)).

Notes on Reference Files

Reference files are used for enumerating a set of possible values for a certain data field for colleges to select when reporting data.

A reference file that is applicable to a particular data element is identified on the corresponding data element worksheet. For this publication, the naming convention of all reference files includes 'yyyy' which represents the applicable reporting year. For example, the naming convention of CIP.yyyy for the 2018-2019 reporting year will appear on the website as CIP.2019.

[All reference files are available at http://www.fldoe.org/accountability/data-sys/CCTCMIS/reference-files.shtml.](http://www.fldoe.org/accountability/data-sys/CCTCMIS/reference-files.shtml)

Description:

The Florida Education Identifier (FLEID) is a unique identifier assigned to a student by the Florida Department of Education. FLEID is used across Student and Admissions database systems. §1008.386 F.S. mandates the establishment of the FLEID to replace the use of social security numbers as student identification numbers.

The FLEID numbering convention is 14 alphanumeric characters, always beginning with the letters FL, followed by 12 numbers.

Description:

Record Type One – A code indicating whether the student is classified as disabled. Disabled is defined as any type of physical or mental impairment that substantially limits or restricts one or more major life activities, including walking, seeing, hearing, speaking, learning, and working. Primary disability is determined by the disability that has the highest cost for the institution to accommodate.

Disabled Classifications are defined in Rule 6A-10.041 F.A.C.

TABLE VALUES

- A Autism Spectrum Disorder. Disorders characterized by an uneven developmental profile and a pattern of qualitative impairments in social interaction, communication, and the presence of restricted repetitive, and/or stereotyped patterns of behavior, interests, or activities. These characteristics may manifest in a variety of combinations and range from mild to severe.
- B Traumatic Brain Injury. An injury to the brain, not of a degenerative or congenital nature but caused by an external force, that may produce a diminished or altered state of consciousness, which results in impairment of cognitive ability and/or physical functioning.
- H Hearing impairment. A hearing loss of 30 decibels or greater, pure tone average of 500, 1000, 2000, and 4000 Hz, ANSI, unaided in the better ear. Examples include but are not limited to the following: conductive hearing impairment or deafness, sensorineural hearing impairment or deafness, high or low hearing loss or deafness, acoustic trauma hearing loss or deafness.
- I Intellectual Disability. A disorder significantly below average general intellectual and adaptive functioning manifested during the developmental period, with significant delays in academic skills. Developmental period refers to birth to eighteen (18) years of age.
- L Specific Learning Disabilities. A disorder in one or more of the basic psychological or neurological processes involved in understanding or in using spoken or written language. Disorders may be manifested in listening, thinking, reading, writing, spelling, or performing arithmetic calculations. Examples include dyslexia, dysgraphia, dysphasia, dyscalculia, and other specific learning disabilities in the basic psychological or neurological process. Such disorders do

not include learning problems that are due primarily to visual, hearing, or motor handicap, to mental retardation, to emotional disturbance, or to an environmental deprivation.

- M Emotional or Behavioral Disability. Any mental or psychological disorder including but not limited to organic brain syndrome, emotional or mental illness, or attention deficit disorders.
- O Other health impairment. (Student has a specific disability which is not listed in the others specific categories).
- P Physical impairment. (Musculoskeletal and connective tissue disorders, neuromuscular disorders). Physically disabling conditions which may require an adaptation to one's school environment or curriculum. Examples include but are not limited to the following: cerebral palsy, absence of some body member, clubfoot, nerve damage to the hand and arm, cardiovascular aneurysm (CVA), or head injury, and spinal cord injury.
- S Speech Impairment. Disorders of language, articulation, fluency, or voice that interfere with communication, pre-academic or academic learning, vocational training, or social adjustment. Examples include but are not limited to the following: Cleft lip and/or palate with speech impairment, stammering, stuttering, laryngectomy, and aphasia.
- V Visual impairment. Disorders in the structure and function of the eye as manifested by at least one of the following:
 - 1) Visual acuity of 20/70 or less in the better eye after the best possible correction,
 - 2) A peripheral field so constricted that it affects one's ability to function in an educational setting,
 - 3) A progressive loss of vision that may affect one's ability to function in an educational setting. Examples include but are not limited to the following: cataracts, glaucoma, nystagmus, retinal detachment, retinitis pigmentosa, and strabismus.
- Z Not applicable or not reported.

Description:

Record Type One – The student's domicile, within or without the state of Florida, identified in order to assess fees at the institution. In order to assess registration fees, a student shall be classified as Florida resident or non-resident as of the first day of classes.

TABLE VALUES

A	Non-Florida resident who is an active duty military member paying instate fees by tuition waiver (§1009.26 (14)(a) F.S.)
B	Non-Florida resident military veteran paying in state fees by tuition waiver (§1009.26 (13)(a)(1) F.S.)

E	Non-Florida resident Florida High School Graduates paying in-state fees (§1009.26 (12)(a) F.S.)
X	Unknown or not reported/not required.

NOTES:

1. For students enrolled in non-credit courses, code this data element with data that is available for the student.
2. Dual enrolled students are not required to report residency. The Division of Florida Colleges has set policy that residency for dual enrolled students be reported as X. If a student completes high school and continues enrollment as a regularly admitted student in the same term, report the residency as determined through documentation verification at the time of post-high school enrollment.
3. Table Value E indicates an out-of-state waiver for a student who went to a Florida school for three years, graduated from a Florida high school, and was admitted to a college within 24 months of high school graduation. The student must submit an official Florida high school transcript as evidence of attendance and graduation. If a student is coded E for DE 1004, they may be coded as an X on DE 1001 – Citizenship.

Description:

Record Type One – A code to show if the student is first-time-in-college or first-time dual enrolled/early admitted.

First-Time-in-College (FTIC) Student

A certificate or degree seeking student who enters a postsecondary institution for the first time after high school graduation regardless of the number of credits earned through any acceleration mechanism (i.e., Dual Enrollment/Early Admission, AP, AICE, IB, or CLEP).

Colleges may not know from a student's transcript if the student was a prior Dual Enrollment, Collegiate, or Early Admission student. As a result, the FTIC definition will be used by Community College and Technical Center MIS (CCTCMIS) to generate state and federal reports.

Colleges will report as FTIC Dual Enrollment or Early Admission, a student who is enrolled as a Dual Enrolled, Collegiate, or Early Admission student for the first time. FTIC Dual Enrollment or Early Admission students must be enrolled in at least one course in one of the following instructional areas: Advanced and Professional, Postsecondary Vocational, or Postsecondary Adult Vocational.

Colleges will report as FTIC, a student who is attending a postsecondary institution for the first time. FTIC students must be enrolled in at least one course in one of the following instructional areas: Advanced and Professional, Postsecondary Vocational, Postsecondary Adult Vocational, College Preparatory, Vocational Preparatory, or Apprenticeship. EXCLUDES students exclusively enrolled in GED, Adult Basic, Adult Secondary, Continuing Workforce Education, Lifelong Learning, or Educator Preparation Institute. A student that attends another postsecondary institution and earns no credit or no credit is transferred is a Transfer student, not a FTIC.

All state and federal reports generated by CCTCMIS will report FTIC as those students who enter a postsecondary institution for the first time after high school. FTIC Dual Enrollment and Early Admission students are excluded. CCTCMIS will use historical Student Database data to determine prior Dual Enrollment or Early Admission students who are entering a postsecondary institution for the first time after high school graduation and include these students as FTIC.

TABLE VALUES

- D First-Time-in-College Dual Enrollment or Early Admission Student – A student can only be reported with a D once and will not be coded with a Y in later terms.
- N The student is not First-Time-in-College or First-Time-in-College Dual Enrollment or Early Admission Student – Student is enrolled in at least one course in one of the following instructional areas: Advanced and Professional, Postsecondary Vocational, Postsecondary Adult Vocational, College Preparatory, Vocational Preparatory, or Apprenticeship.
- Y First-Time-in-College Student – A student can only be reported with a Y once.
- Z Not Applicable – Student is exclusively enrolled in GED, Adult Basic, Adult Secondary, Continuing Workforce Education, Lifelong Learning, or Educator Preparation Institute.

Characteristics

Length: 4
Data Type: Numeric
Physical Description: 9 (3) V9
Last Modified: 12/15/1994

Data Element is used in the Following Reports:

Exceptions

Description:

Record Type One – Term Institutional Grade Points Equivalents (Quality) generated in the current degree level, at the reporting institution, based on a 4.0 scale. Term Institutional Grade Points will consist only of the reporting term data for the student. Non-instructional credit awarded (i.e. CLEP, etc.) and college preparatory credit awarded will not be included in the Term Institutional Grade Points.

Code all nines (9999) if this field is not applicable.

EXAMPLE

If a student makes a grade of 'A' in a 3-hour course, then Term Institutional Grade Points are calculated as follows:

$$3 \text{ (Hours)} * 4 \text{ (Scale)} = 12 \text{ (Term Institutional Grade Points)}$$

This data element is the sum of all such points for an individual student for the term.

EXAMPLE

If a student makes a grade of 'A' in a 3-hour course, then Total Institutional Grade Points are calculated as follows:

$$3 \text{ (Hours)} * 4 \text{ (Scale)} = 12 \text{ (Total Institutional Grade Points)}$$

This data element is the sum of all such points earned by the individual student prior to and including the current reporting term for the current degree level.

NOTE: Nulls are loaded for Beginning-of-Term data submissions.

Edit:

1030_1	Total Institutional Grade Points (DE 1030) missing or non-numeric	Critical
1030_2	Total Institutional Grade Points (DE 1030) GT 0 and Total Institutional Hours for GPA (DE 1031) EQ 0	Critical

Data Element 1031

Total Institutional Hours for GPA

Characteristics

Length: 4
 Data Type: Numeric
 Physical Description: 9 (3) V9
 Last Modified: 12/11/1992

Data Element is used in the Following Reports:

- Accountability Outcome Measures
- Perkins Performance
- Exceptions

Description:

Record Type One – Total credit hours attempted in the current degree level at the reporting institution, which are used for calculation of the grade point average (GPA). The Total Institutional Hours for GPA will consist of the reporting term data as well as historical term data for the student. Non-instructional credit hours (i.e. CLEP, etc.) and college preparatory credit hours will not be included in the Total Institutional Hours for GPA.

Code all nines (9999) if this field is not applicable.

NOTE: Null values are loaded for Beginning-of-Term data submissions.

Edit:

1031_1	Total Institutional Hours for GPA (DE 1031) non-numeric	Critical

Transfer Student Flag

Characteristics

Length: 1
 Data Type: Alphanumeric
 Physical Description: X (1)
 Last Modified: 4/25/2018

Data Element is used in the Following Reports:

- Exceptions
- Readiness for College
- Accountability Outcome Measures
- FETPIP File (Enrollments)
- IPEDS (EF2)
- Ethnicity and Gender by Full/Part-Time and Enrollment Status

Description:

Record Type One – Indicates whether the student is or is not a transfer student. A transfer student is a student who has previously attended another postsecondary institution, including non-regionally accredited postsecondary institutions, whether or not any credit is earned or accepted. The First-Time Transfer Student is a transfer student that is in their first term of enrollment at your institution. Once the First-Time Transfer Student is coded “F” in the first term of enrollment, the student will be coded “Y” each subsequent term enrolled. Transfer students are enrolled in at least one course in one of the following instructional areas: Advanced and Professional, Postsecondary Vocational, Postsecondary Adult Vocational (if certificates are awarded), College Preparatory, Vocational Preparatory, or Apprenticeship. EXCLUDES students exclusively enrolled in GED, Adult Basic, Adult Secondary, Continuing Workforce Education, Lifelong Learning, or Educator Preparation Institute.

TABLE VALUES

F First-Time Transfer Student (first term of enrollment at your institution)
 N No
 Y Yes (every term after the first term the student transfers)
 Z Not applicable - Student is exclusively enrolled in GED, Adult Basic, Adult Secondary, Continuing Workforce Education, Lifelong Learning, or Educator Preparation Institute.

NOTE: Once a student is flagged as a transfer student (DE 1032 EQ Y) the student will always be flagged as a transfer throughout their enrollment at the reporting institution. If the student transfers to yet another institution, then the student will be coded “F” the first term of enrollment then “Y” for every other term thereafter.

Characteristics

Length: 1
Data Type: Alphanumeric
Physical Description: X (1)
Last Modified: 7/1/2014

Data Element is used in the Following Reports:

- Exceptions
- Developmental Education

Description:

Record Type One – Indicates the common placement testing developmental education exemption as a result from a one-time assessment, at the time of admission or first term enrollment as a degree/certificate seeking student after high school graduation.

This data element reports whether a student is exempt from developmental education requirements based on the high school language of § 1008.30 (4)(a) F.S.;

A student who entered ninth grade in a Florida public school in the 2003-2004 school year, or any year thereafter, and earned a Florida standard high school diploma or a student who is serving as an active duty member of any branch of the United States Armed Services shall not be required to take the common placement test and shall not be required to enroll in developmental education instruction in a Florida College System institution. However, a student who is not required to take the common placement test and is not required to enroll in developmental education under this paragraph may opt to be assessed and to enroll in developmental education instruction, and the college shall provide such assessment and instruction upon the student's request.

TABLE VALUES

- Y The student meets the developmental education exemption because they entered ninth grade in a Florida public school in 2003-2004 or later, and graduated with a standard high school diploma (see table below). Also, students who qualify for the exemption, and HAVE NOT successfully completed previously identified development education needs, should be identified as exempt ('Y').
- N The student does not meet the developmental education exemption because they entered ninth grade in Florida in a Florida public school before 2003-2004 or the high school diploma type is not included in the table below. Other non-qualifying criteria may be an out-of-state high school student, homeschool, or private high school graduates.
- D Students who qualify for the exemption, but HAVE already successfully completed previously identified developmental education needs.
- W Unknown. Could not be determined by submission time, but will be assessed and placed in another value in the next submission.
- X Not applicable (i.e. such as current dual enrollment, Post-Secondary Adult Vocational, Adult General Education, CWE, Transient).

Description:

Record Type One – Indicates the highest education level completed by the first parent and/or guardian who played the largest role in raising the student, regardless of the student’s age.

First generation student information is becoming a topic of increasing interest. Studies have shown that first generation students may have limited knowledge about college and the associated expectations. These students have a higher risk of leaving school prior to the completion of a degree. Identifying and targeting these students for extra services and assistance can increase retention.

 B Bachelor degree or four-year degree
 P Graduate degree (e.g. masters, doctorate, etc.) or professional degree (e.g. law, psychology, medicine, pharmacy, etc.)
 X Unknown
 Z Not Applicable (non-credit students)

NOTES:

1. Report the first parent, other family member, and/or guardian who the student believed played the largest role in raising them, please indicate the highest level of education that it is believed parent one or guardian one attained.
2. If the student does not know the parent or guardian’s highest education level report as ‘Unknown’.
3. Students only need to be asked once; however if a college chooses to ask more frequently, then that college may update this data element when new data has been acquired.

Record Type One – Indicates whether a student in NRS-eligible program had any perceived barriers to employment at the time of entry in the current term.

TABLE VALUES

- C Student perceives him or herself as possessing attitudes, beliefs, customs or practices that influence a way of thinking, acting or working that may serve as a hindrance to employment
- N Student does not meet the conditions described above
- Z Student is not enrolled in an NRS eligible program

NOTES:

1. *Federal reporting requirement for NRS eligible programs (Workforce Innovation and Opportunity Act of 2014, Title I, Subtitle A, Chapter 4, Section 116).*
2. *This data element should be collected at the beginning of each term. If a student is enrolled in two or more terms in a reporting period (e.g., Summer A, and Summer B), report the data collected at the beginning of the first term of the reporting period.*

Description:

Record Type One – Indicates whether a participant in NRS-eligible program is a migrant or seasonal worker at the time of entry in the current term.

TABLE VALUES

- A Student is a low-income individual (i) who for the 12 consecutive months out of the 24 months prior to application for the program involved, has been primarily employed in agriculture or fish farming labor that is characterized by chronic unemployment or underemployment; and (ii) faces multiple barriers to economic self-sufficiency; or (iii) a dependent of the person described above
- B Student is a seasonal farmworker and whose agricultural labor requires travel to a job site such that the farmworker is unable to return to a permanent place of residence within the same day; or is a dependent of the person described above
- N Student does not meet the conditions described above
- Z Student is not enrolled in an NRS eligible program

NOTES:

1. Report Algebra scores for the CPT or PERT Mathematics subtest. Code all nines (999999) if entry level/exit test was not taken.
2. Once student scores at the highest score range they are considered to have completed the level and should be moved up a level.
3. SAT2016 Math test scores are reported from the College Board with a decimal, as the test score ranges from 10-40 in increments of 0.5. When submitting SAT2016 Math test data, submit as a right justified whole number (e.g., 20.0 is reported as 002000; 20.5 is reported as 002050).
4. All test scores are to be reported with an assumed decimal place starting in 2017-18. When submitting a whole number, submit as a right justified whole number (e.g., 20 is reported as 002000).
5. See Appendix C for guidance on reporting a TABE 11-12 (Adult) score that is lower than the allowable range.

Data Element 1105

Entry Level/Exit Test – Date

Characteristics

Length: 6
 Data Type: Numeric
 Physical Description: 9 (6)
 Last Modified: 04/25/2018

Data Element is used in the Following Reports:

- Entry Level/Exit Test
- Accountability Outcome Measures

Description:

Record Type Two – The month and year the entry level/exit test was taken.

The format for coding this element is MMCCYY where MM is a valid month (01-12), CC is a valid century (19 or 20), and YY is a numeric year.

Code 999999 for unknown, not applicable, or Adult records.

Description:

Record Type Two – Indicates if a student has completed the highest level college preparatory course in the Entry Level/Exit Test-Subtest (DE 1103).

TABLE VALUES

H Student completed a College Preparatory Course in High School (Successful Exit).
 N Student did not complete the highest-level college preparatory course or student tested into college preparatory but has not enrolled in a college preparatory course.
 O Student enrolled in a college preparatory course but exited the college preparatory course hierarchy by some other method and did not complete the highest-level college preparatory course (successful exit).
 Q Student who has an Entry Level/Exit Test Type (DE 1104) of L (ESL), V (TABE 9-10), J (TABE 9-10 Adult Only), K (Best Literacy), N (BEST Plus), Q (TABE CLAS-E), R (CASAS), D (TABE 11-12 Adult Only), or Z (TABE 11-12).
 Y Student completed the highest level college preparatory course.
 X Not applicable (student is not required to take an entry-level test).
 Z Student took an entry level test but did not test into college preparatory.

Description:

Record Type Three – Indicates the type of Industry Certification which the student has been granted credit toward an AS/AAS degree. A Gold Standard Industry Certification is a form of acceleration that applies credit from an industry certification. The State Board of Education has approved the listed Statewide Career and Technical Education Articulation Agreements that are based on industry certification. This supports the Department’s Next Generation Areas of Focus, Effort Number 3, “to expand opportunities for postsecondary degrees and certificates.” These agreements are intended to be a minimum guarantee of articulated credit and do not preclude institutions from granting additional credit based on local agreements.

Program of Study – CIP

Characteristics

Length: 10
 Data Type: Numeric
 Physical Description: 9 (10)
 Last Modified: 9/26/2018

Data Element is used in the Following Reports:

- Perkins Funding
- AA-1A
- AA-1B
- AA-1C
- Accountability Outcome Measures
- Perkins Performance
- NRS

Description:

Record Type Four – Identifies the classification associated with the College's declared program of study (Data Element 2005). The Program of Study - CIP is a ten-character code composed of a two or three digit code indicating the program cluster, a six digit code indicating the Classification of Instructional Program (CIP), and a one or two digit unique identifier. Code all nines (999999999) if the student is not enrolled in a program. If a student is enrolled in one or more inactive program(s) in one term, then code this data element with one of the following: 8888888881, 8888888882, 8888888883, 8888888884, 8888888885, 8888888886, 8888888887, 8888888888, 8888888889.

NOTES:

1. *If the student is awaiting entry into a Limited Access Program, code the student under the specific CIP (Needed for the AA-1B).*
2. *[Valid CIP and baccalaureate CIP codes are listed in the reference files CIP.yyyy.txt and BACCIP.yyyy.txt, respectively, and are available for download from http://www.fldoe.org/accountability/data-sys/CCTCMIS/reference-files.stml.](http://www.fldoe.org/accountability/data-sys/CCTCMIS/reference-files.stml)*
3. *Code '5551399990' for Students enrolled in an Educator Preparation Institute (EPI) Certificate programs.*
4. *For Students enrolled in a Certificate of Professional Preparation program, the CIP cluster is '555' and the CIP Unique Identifier is '0'. The CIP will be assigned by the Division of Florida Colleges, and added to the file with valid CIP codes.*

For Associate in Arts (AA) Degree Programs and Baccalaureate Degree Programs

Cluster			Classification of Instructional Program						Unique Identifier

CLASSIFICATION OF INSTRUCTIONAL PROGRAM VALUES

For AA Degree Programs, code the CIP 240101.

For Baccalaureate Programs, code the CIP that has been agreed upon between the Division of Florida Colleges and the college (*see note 2*).

UNIQUE IDENTIFIER

The “Unique Identifier” uses numbers between zero and nine to differentiate between two CIP codes that otherwise the same. It is also used to reflect the “track”, referring to the program track indicated in the Common Prerequisite Manual.

For Associate in Applied Science (AAS) Degree Programs, Associate in Science (AS) Degree Programs, Associate in Science Certificate Programs, Vocational Certificate Programs, Apprenticeship Programs, or Adult General Education

NOTES:

1. **General Freshman.** Persons intending to achieve a degree or certificate but have not met the program enrollee criteria (definition in the [Florida College System Glossary](#)).
2. **Employment Related.** Persons enrolled for credit or non-credit courses for career exploration or current job upgrading. These persons do not intend to complete a degree or certificate program.
3. **Other Personal Objectives.** Persons enrolled in credit or non-credit courses to satisfy their personal objectives. The enrollments would not be employment related. These persons do not intend to complete a degree or certificate program.
4. **Linkage.** A cooperative agreement among community colleges to allow students to enroll in specialized programs only offered at certain colleges. A student enrolls in one linkage college to complete the general education requirements and continues his/her education in a specialized program at another linkage college.
5. **Baccalaureate – Transitional.** Students who meet the minimum requirements for baccalaureate admittance (i.e., earned associate degree or a minimum of 60 college credits successfully completed, including satisfaction of general education requirements) but are not eligible for admission to a specific baccalaureate program or are on the “wait list” for limited enrollment restricted access programs. The “transitional” classification is designated for student seeking admission to a baccalaureate program that are completing additional requirements prior to being fully admitted into a specific baccalaureate program. Additional requirements may include the completion of common prerequisite courses, or obtaining licensure or certification exam results. This classification is intended to be temporary while the student completes the remaining admission requirements for a specific baccalaureate program.

Statewide articulation agreement.

To improve articulation and reduce excess credit hours, beginning with students initially entering a Florida College System institution in 2013-2014 and thereafter, the articulation agreement must require each student who is seeking an associate in arts degree to indicate a baccalaureate degree program offered by an institution of interest by the time the student earns 30 semester hours. The institution in which the student is enrolled shall inform the student of the prerequisites for the baccalaureate degree program offered by an institution of interest (§ 1007.23 (3) F.S.).

Statewide articulation agreement.

To improve articulation and reduce excess credit hours, beginning with students initially entering a Florida College System institution in 2013-2014 and thereafter, the articulation agreement must require each student who is seeking an associate in arts degree to indicate a baccalaureate degree program offered by an institution of interest by the time the student earns 30 semester hours. The institution in which the student is enrolled shall inform the student of the prerequisites for the baccalaureate degree program offered by an institution of interest (§ 1007.23(3) F.S.).

AGE Withdrawal Reason

Characteristics

Length: 1
Data Type: Alphanumeric
Physical Description: X (1)
Last Modified: 9/26/2018

Data Element is used in the Following Reports:

- Exceptions
- Workforce Innovation and Opportunity Act (WIOA) Performance (Adult Education)
- NRS

Description:

Record Type Four – Indicates the reason for a student’s withdrawal from an NRS eligible Adult General Education (AGE), in its entirety (*at the program level*), during the current reporting term.

TABLE VALUES

A	Student is incarcerated or residing in an institution or facility providing 24-hour support such as a hospital or treatment center
B	Student is receiving medical treatment that precludes entry into unsubsidized employment or continued participation in the program
C	Student is deceased
D	Student is a member of the National Guard or other reserve military unit of the armed forces and is called to active duty for at least 90 days
E	Student is in the foster care system, or any other mandated residential program, and has moved from the area as part of such a program or system (exclusion for youth Students only)
F	Student withdrawn and exited for non-attendance
G	Student exited for a reason other than those identified above
N	Student remains enrolled in an NRS eligible program
Z	Student is not enrolled in an NRS eligible program

NOTES:

1. If a student does not withdraw from ALL NRS eligible AGE courses within a given program, they are not considered withdrawn and a value of ‘N’ is reported.
2. If a student withdraws from ALL NRS eligible AGE courses, report the applicable value from the table above.
3. Only report a ‘G’ if the withdrawal reason is unknown or not covered in the table of values.
4. If the student is not enrolled in an NRS Eligible program, report a ‘Z’.
5. Federal reporting requirement for NRS eligible programs (Workforce Innovation and Opportunity Act of 2014, Title I, Subtitle A, Chapter 4, Section 116).
6. Students coded A-E are excluded from NRS performance outcome measures using placement or employment data.

Completion – CIP

Characteristics

Length: 10
 Data Type: Numeric
 Physical Description: 9 (10)
 Last Modified: 4/16/2014

Data Element is used in the Following Reports:

- AA-1A
- Accountability Outcome Measures
- Perkins Performance
- NRS
- IPEDS (C2)

Description:

Record Type Five – Identifies the classification associated with the program in which a completion occurred. Completion - CIP is a ten-digit code composed of a two or three digit code indicating the program cluster, a six digit code indicating the Classification of Instructional Program (CIP), and a one or two digit unique identifier. Code all nines (999999999) if no completion was awarded. If a student completes one or more state inactive program(s) in one term, then code this data element with one of the following: 888888881, 888888882, 888888883, 888888884, 888888885, 888888886, 888888887, 888888888, or 888888889.

NOTES:

1. Record Type not required for Beginning-of-Term data submissions.
2. [Valid CIP and baccalaureate CIP codes are listed in the reference files CIP.yyyy.txt and BACCIP.yyyy.txt, respectively. These files are available for download from http://www.fldoe.org/accountability/data-sys/CCTCMIS/reference-files.stml.](http://www.fldoe.org/accountability/data-sys/CCTCMIS/reference-files.stml)
3. If the CIP code is not in either CIP.yyyy.txt or BACCIP.yyyy.txt (where applicable), then use the following:
 - a. For students enrolled in an Educator Preparation Institute Certificate program, code '5551399990'.
 - b. For Students enrolled in a Certificate of Professional Preparation program, the CIP cluster is '555' and the CIP Unique Identifier is '0'. The CIP code will be assigned by the Division of Florida Colleges, and added to the file with valid CIP codes.

Characteristics

Length: 2
 Data Type: Alphanumeric
 Physical Description: X (2)
 Last Modified: 9/21/2018

Data Element is used in the Following Reports:

- NRS
- IPEDS (C2)

Description:

Record Type Five – Indicates the Adult Literacy Completion Point that a student has completed in a particular program.

Literacy Completion Point (LCP) means that attainment of academic or workforce readiness skills that qualify the participant for further basic education, vocational education, or employment. Literacy Completion Points reported may not be based on out of range test scores as determined using publisher guidelines.

TABLE VALUES

Valid Adult Literacy Completion Point value (*see Appendix A*)

Data Element 2120

EPI Subject Area Specialization – Completion 5

Characteristics

Length: 3
 Data Type: Numeric
 Physical Description: 9 (3)
 Last Modified: 4/15/2015

Data Element is used in the Following Reports:

- Teacher Preparation Enrollment and Completion File

Description:

Record Type Five – Identifies the Educator Preparation Institute (EPI) subject area of Specialization Completion. The list of EPI Certification codes that the Bureau of Educator Recruitment, Development, and Retention (BERDR) has provided for the colleges is available from CCTCMIS (*see Note 2*).

Description:

Record Type Five – The date the degree, certificate, diploma, or Literacy Completion Point (LCP) was awarded to the student. Use date the student finishes during the term or the date the term ends; whichever occurs first.

The format for coding this element is MMDDCCYY.

Where:

MM is the two digit month (01-12)

DD is the two-digit day (01-31)

CC is the two digit century (20)

YY is the two-digit year

NOTES:

1. Code 99999999 for students who do not meet the criteria.
2. Federal reporting requirement for NRS eligible programs (*Workforce Innovation and Opportunity Act of 2014, Title I, Subtitle A, Chapter 4, Section 116*).

Description:

Record Type Six – Classifies the course's subject matter content.

Coding structure is as follows:

1. The first three digits of all numbers represent the Information Classification Structure (ICS) cluster.
2. The fourth and fifth digits of those courses in the Advanced and Professional program identify the category.
3. The fourth and fifth digits of those courses in Vocational Programs identify the separation between Postsecondary Vocational, Postsecondary Adult Vocational, and Continuing Workforce Education.

Data Element 3003

Course Cooperative Education Flag

Characteristics

Length: 1
Data Type: Alphanumeric
Physical Description: X (1)
Last Modified: 7/1/1998

Data Element is used in the Following Reports:

- Exceptions
- AA-1A

Description:

Record Type Six – Indicates whether or not the student is in a cooperative education course. A cooperative education student is a student who, by written cooperative arrangements between the school and employers, is employed and receives compensation, and receives instruction, including required academic courses and related vocational instruction by alternation of study in school with a job in any occupational field.

TABLE VALUES

Y Student is enrolled in a cooperative education course
N Student is not enrolled in a cooperative education course

NOTE: Null values are loaded for Beginning-of-Term data submissions.

Data Element 3008

Course Identifier

Characteristics

Length:	8
Data Type:	Alphanumeric
Physical Description:	X (8)
Last Modified:	6/6/2019

Data Element is used in the Following Reports:

- Course Number Match
- Accountability Outcome Measures
- Developmental Education Enrollment

Description:

Record Type Six – An eight-digit alphanumeric code that is assigned by the Statewide Course Numbering System (SCNS) to identify credit courses in a systematic manner. The code consists of a three-letter prefix, a four-digit number, and a one-digit suffix code. The first digit of the number reflects the course level.

- 0 Less than college level
- 1, 2 Indicates lower level
- 3, 4 Indicates upper level

The suffix code is used to indicate laboratories and provide a method for equating laboratory courses:

- C A combined lecture-lab sequence in which the lab is offered in conjunction with the lecture at the same time/place.
- L (1) A course of which the content is entirely laboratory, or
(2) The laboratory component of a lecture-lab sequence in which the lab is offered at a different time/place than the lecture.
- S The course is not a lab course.

NOTE: Use the Statewide Course Numbering System to identify Advanced and Professional, Postsecondary Vocational, College Preparatory, and Dual Enrollment ICS (Data Element 3001 and Data Element 3005) courses. Use institutional numbers for all other ICS courses.

Expected Family Contribution

Characteristics

Length: 7
Data Type: Numeric
Physical Description: 9 (7)
Last Modified: 7/1/2008

Data Element is used in the Following Reports:

- Financial Aid

Description:

Record Type Eight – The amount of money that the family, including the student, is expected to be able to contribute to the student's education as determined by the Federal Methodology Need Analysis.

This amount is the one used by the Financial Aid Office in determining the expected family contribution used in awarding need-based aid. For students who are not eligible for need-based aid, code 9999999.

This amount is the expected family contribution calculated for the number of terms the student attended.

Data Element 3205

Financial Aid – Need

Characteristics

Length: 7
Data Type: Numeric
Physical Description: 9 (7)
Last Modified: 7/1/2008

Data Element is used in the Following Reports:

- Financial Aid

Description:

Record Type Eight – The amount determined at the college by subtracting the Expected Family Contribution (DE 3204) from the cost of attendance.

This is the amount used by the Financial Aid Office in determining the financial need for need-based aid. For those students not eligible for need-based aid, code 9999999. This should be equal to the cost of attendance for the number of terms the student attended minus the expected family contribution for the number of terms the student attended.

The number of terms used in the calculation for both cost of attendance and expected family contribution should be the same.

Entry Level Test Report

The Summary Entry Level Test report is generated from the Entry Level Test Type (DE 1104). This report displays the number of First-Time in College (DE 1005 EQ Y) students who are at/above or below the cutoff scores (Entry Level Test Score (DE 1101) – see cutoff Scores used below). The report is broken down by Entry Level Test – Subtest (DE 1103). Rule 6A-10.0315 governs college readiness test cut-off scores.

Completions Report

The Completions Report counts the number of degrees and awards conferred by each institution. Program completions are counted by the 2-digit Program CIP Category, as well as by the six-digit Program CIP, for awards less than one academic year, at least one but less than two years, associate in arts degrees, associate in science degrees, associate in arts and sciences degrees, awards at least two but less than four years, and baccalaureate degrees. All of these counts are reported by race and gender. In addition, the Division will report the total number of awards granted to students with unknown gender.

The column totals will be calculated using the following criteria:

BACCALAUREATE DEGREES

DE 2103 (*Completion Degree*) EQ C (Bachelor's Degree)

AWARDS AT LEAST 2 BUT < 4 YEARS

Always Zero

ASSOCIATE DEGREES (AA)

DE 2103 (*Completion Degree*) EQ 1 (Associate in Arts)

AA-1A Report

From the Student Database End-of-Term files, a file will be generated for producing the state enrollment and completions reports (AA1A), according to the following selection criteria. Each record will contain the totals for enrollments, and completions, excluding a total for cooperative education completers.

The program record data will be based on the first occurrence of program records found in the Winter/Spring Term, then the Fall Term, then the Summer Term. The most up-to-date program hour information will be derived from the CIP table. Each record will contain the following totals for enrollments, and completions, excluding a total for cooperative education completers.

PROCESSES AND CALCULATIONS

1. Select Student Demographic = Reporting Institution (DE 1017), Term Identifier (DE 1028), and Year (DE 1028)
 - a. Create two flags to keep track of Disable Class and Limited English. These flags are called Disabled and LEP.
 - b. If Disable Class (DE 1002) IN A, B, H, I, L, M, O, P, S, V) then set Disabled EQ Y
 - c. If Limited English (DE 1013) EQ Y then set LEP EQ Y

2. Select Student Course = Reporting Institution (DE 1017), Term Identifier (DE 1028), and Year (DE 1028)
 - a. Create three flags to keep track of Dual Enrollment, Cooperative Education, and courses that are considered to be disadvantaged. These flags are called Dual, Coop, and Disadv.
 - b. If Dual Enrollment (DE 3005) IN (H, P, S,), then set Dual EQ Y
 - c. If Cooperative Education (DE 3003) EQ Y, then set Coop EQ Y
 - d. If ICS (DE 3001) IN (13101, 13102, 13103, 13104), then set Disadv EQ Y

3. Select Student Program = Reporting Institution (DE 1017), Term Identifier (DE 1028), and Year (DE 1028)
 - a. If Program Level (DE 2005) EQ 0 and
 - b. IF Program Credit Hours (DE 2008) NE 99998.9

4. Select VCIP Table by looking at Award Type IN (ATC, BAS, BS, EDI, AA, CPP) and pulls record from Program table selecting only Program of Study - (DE 2005) IN (0, 1, 2, B, A, C, D, E, F, I, P, T)
 - a. Merge VCIP records with Program records. This will give you the number of hours it will take to complete program.

5. Select Student Financial Aid table = Reporting Institution (DE 1017), Term Identifier (DE 1028), and Year (DE 1028)
 - a. Create a flag for Aid Type called Aid.
 - b. IF Aid Type (DE 3102) NOT IN (AS, GS, MS, NN, SS) Then set Aid EQ Y

6. Select Student Completion records = Reporting Institution (DE 1017), Term Identifier (DE 1028), and Year (DE 1028)
 - a. If Occupational Completion Point (DE 2104) EQ Z and
 - b. If Literacy Completion Point (DE 2105) EQ Z and
 - c. If Completion – CIP Cluster (DE 2101) LT 999 and
 - d. If Completion Degree Granted (DE 2103) IN (1, 2, 3, 4, 5, 7, A, C, P, F)

7. Select VCIP Table = Year
 - a. If Vocational Occupational Point EQ Z and
 - b. Vocational Award Type IN (ATC, BAC, EPI, AA)

8. Update Student Demographic (step 1) with Student Financial Aid (step 5)
 - a. If Aid EQ Y then update Disadv EQ Y

9. Update Student Demographic (step 8) with from Student Course (step 2).
 - a. Create a flag for Disadvantage to be used in the Student Demographic. The reasoning is because you have multiple Student Course records.
 - b. If Disadv EQ Y (step 2) then set the new flag Disadv EQ Y

10. Merge Student Demographic output (step 9) with Student Course (step 2).
 - a. Student that have a demographic record but does not have a course record will be dropped. These totals will be used for enrollments.

11. Merge Student Demographic (step 9) with Student Completion (step 6).
 - a. There must be a match between Student Demographic and Student Completions. These totals will be used for completers.

12. Read Student Demographic /Student Completion merge by Reporting Institution (DE 1017) CIP Instructional Program (DE 2002). Student Identification Number (DE 1021)
 - a. If CIP Instructional Program (DE 2002) EQ 240101 then
 - b. IF CIP cluster (DE 2002) GT 111 and LT 119
 - c. Only the first record is outputted.

13. Sort Student Demographic/Student Completion (step 12) by CIPID (DE 2101) and then merge with the Non Traditional Table.
 - a. This will show mark which courses are non-traditional.
 - b. Create a field in the file so you will know that this is the completers file.

14. Match Student Demographic (step 10) with Student Program enrollment (step 3).
 - a. Sort descending term with no duplicates to get the most recent program record using sort key of Reporting Institution (DE 1017), Student Identification Number (DE 1021), Term Identifier (DE 1028), CIP (DE 2002).
 - b. Sort the output in step 12a with no duplicates using sort key Reporting Institution (DE 1017), Student Identification Number (DE 1021), and CIP (DE 2002).
 - c. Sort the output in step 12b using sort key CIP (DE 2002).

15. Merge Vocational CIP output with Student Demographic (step 12).
 - a. This will give you the program titles and length of programs.

16. Sort output from step 13 and merge with the Non Traditional table.
 - a. This will show which courses are non-traditional.
 - b. Create a field in the file so you will know that this is the enrollment file.

17. Sort the Student Demographic/Completers and the Student Demographic/Enrollment files with the following criteria :
 - a. Type record, Reporting Institution (DE 1017), Student Identification Number (DE 1021), CIP (DE 2002), Title (DE 2006)

18. Combine Student Demographic/Completes and Student Demographic/Enrollment into one file.

19. Sort combined file from step 18 by Reporting Institution (DE 1017), CIP Cluster, CIP Instructional Program, CIP Unique Identifier, (DE 2002 or DE 2101) and Level (DE 2005 or DE 2103)
 - a. Read sorted combined file creating totals for Race/Gender/Citizenship.

A record will be created for each college and program of study and includes the following:

OA-2 Report Acceleration Report

Purpose of the Report

The reporting form is designed to report acceleration credits and credit equivalents awarded by a college and the number of individuals receiving them to demonstrate that the college is providing mechanisms for students to progress as rapidly as possible toward their program objectives as required in §1007.27 F.S.

Definitions and Instructions

The report is to include all acceleration credits and credit equivalents awarded by the college during the reporting year (summer, fall, winter), and the number of recipients. Credit accepted through student transfer is not awarded by the college. The categories in which to report the information on the form are self-explanatory or defined below.

College Credits - This is the number of college credits awarded.

College Credit Equivalents - This is the number of college credit equivalents awarded. The equivalent is computed by dividing by 30 the required clock hours to complete the instruction.

Student Headcount - This is the number of students who successfully completed an instance of acceleration. Within each category of acceleration, student headcount should be unduplicated.

Credit by Examination - This is the number of college credits or college credit equivalents awarded students and the number of students who earned such awards by demonstrating through some form of examination, without completing the instruction at the college, that they possess the knowledge and/or skill expected upon satisfactory completion of the instruction offered by the college. The subcategories are:

1. College Level Examination Program (CLEP)
2. CEEB Advanced Placement Program
3. International Baccalaureate Program (*see §1007.27 F.S.*)

Other Credit by Examination - Examinations, other than CLEP and the Advanced Placement Program, devised to provide students the opportunity to demonstrate that they possess the knowledge and/or skill expected upon satisfactory completion of instruction offered by the college without undergoing the instruction.

Credit for Experiential Learning - This is credit awarded as the result of the assessment of prior learning when the transfer of "credit" is not appropriate.

Dual Enrollment (Dual Credit) - The dual enrollment program is the enrollment of an eligible secondary student in a postsecondary course(s) creditable toward an associate degree or vocational certificate and creditable toward a high school diploma.

There are four categories of dual enrollment. These are:

1. Associate Degree - This is the number of dual enrolled students and credits earned which are creditable toward an A.A. or A.S. degree.
2. Postsecondary Adult Vocational - This is the number of dual enrolled students and credit equivalents awarded which are creditable toward a vocational certificate.
3. Early Admission - This is the number of dual enrolled students and credits earned in the Early Admission program as defined in § 1007.27 F.S. Report only that credit applicable toward an associate degree and the high school diploma.
4. Advanced Placement - This is the number of students and college credits earned because of the Advanced Placement program. Report only those students who have stated a preference for advanced placement credit instead of dual enrollment credit (see § 1007.272 F.S.).

Other Dual Enrollment - This is the number of college credits or college credit equivalents awarded to students by the college and the number of students who earned such credit while simultaneously enrolled in high school. Such credit may be applied toward a high school diploma. Dual enrollment arrangements between the college and the private high schools would be reported in this category.

Report 1 - AGE Enrollment and Instructional Hours Comparison Report

From the Student Database End-of-Term files, a file will be generated for producing the AGE Enrollment and Instructional Hours Comparison report, according to the following selection criteria. A record will be created for each college offering Adult Education program in the following enrollment groups: Adult Basic Education, Adult High School, Adult English as a Second Language, English Literacy for Career and Technical Education, and General Education Development.

SELECTION CRITERIA

Course Table

Course – Information Classification Structure	DE 3001
Adult Education Functioning Level	DE 3022

Processes

1. Select student course for Current Year = Reporting Institution (DE 1017), Term Identifier (DE 1028), and Year (DE 1028).
 - a. Set Enrollment flag to 1.
 - b. Sort By student number.
 - c. Sum the enrollment totals
 - d. Sum the enrollment hour totals.

2. Select student course for Prior Year = Reporting Institution (DE 1017), Term Identifier (DE 1028), and Year (DE 1028).
 - a. Set Enrollment flag to 1.
 - b. Sort By student number.
 - c. Sum the enrollment totals
 - d. Sum the enrollment hour totals.

3. Merge the datasets with the enrollment totals for each year together.
4. Use the data to calculate the percent change in enrollment between years.
5. Use the Data to calculate the percent change in instructional hours between years.
6. Find the average hours for each year by dividing the instructional hours by the enrollment totals.
7. Use the average hours calculated in step 6 to find the difference in Average Hours.
8. Generate a report that is aggregated based on the following selection criteria

	DE Number	DE Name	Value
Adult Basic Education	3001	Course – Information Classification Structure	13201
	3022	Adult Education Functioning Level	1, 2, 3, 4

5. Unduplicate results from #3 by CCNUM, Student Identification Number, Term, CIP
6. Select Course Data
7. Merge data from #4 and #5 By CCNUM, Student Identification Number, Term, and Hour Type
8. Select Clock Hour Data by Selecting from #6 where (Course_ICS < 11850 or Course_ICS IN (12101,12201,12301,12401,12501,12601,12701,12102,12202, 12302, 12402,12502,12602,12702,12997,12998)) And Hour_Type = 'C' and Program_Level in ("2","D","P")
9. Unduplicate results from #7 by CCNUM, Student Identification Identifier, CIP
10. For results #9 (Clock Hours Data) add the following columns:
 - a. Enrollment Count = by counting the distinct # of occurrences of the Florida Education Identifier within each CCNUM, CIP.
 - b. Instructional Hours= by summing the hours within each CCNUM, CIP
11. Unduplicate Clock Hour Data by CCNUM, TERM, ,Student Identification Number, Course, Section
12. For clock hour data from results #10 merge current year data and prior year data by CCNUM,CIP
13. For results from #11
For each record by CCNUM and CIP add the following columns:
Percent change enrollment = (enrollment current year – enrollment count prior year)/enrollment count prior year
Average hours prior year = round (instructional hours prior year/enrollment prior year, PERCENT6.0)
Average hours current year = round (instructional hours current year/enrollment current year, PERCENT6.0)
Percent change instructional hours = (instructional hours current Year-instructional hours prior year)/instructional hours prior year
Average hours difference = average hours current year-average hours prior year
14. From results from #12 create a report 4A (CTE Enrollment and Instruction Clock Hours By Program) with the following data:
College Number (CCNUM)
College Name
Program Number (CIP)

1. Select student program = Reporting Institution (DE 1017), Term Identifier (DE 1028), and Year (DE 1028).
 - a. If CIP Not in ('01532010200','01532010202','01532010300','01532010301','01532010207') then delete.
 - b. Set enrollment count equal to 1.
 - c. Sort by PSNID and Program of Study – CIP
2. Select student Completion = Reporting Institution (DE 1017), Term Identifier (DE 1028), and Year (DE 1028).
 - a. If Literacy Completion point equals “Z” or blank, set LCP count equal to 0.
 - b. If Literacy Completion Point does not equal “Z” or blank, set LCP count equal to 1.
3. Merge the datasets with the enrollment and completion.
 - a. If the enrollment count equals 0 but the LCP count equals 1, delete.
 - b. Get a summation of the enrollment counts and LCP counts per program
4. Use the data from the merged dataset to find the LCPs per enrollment by dividing the LCP total by enrollment.
5. Generate a report that is aggregated based on the following selection criteria

	DE Number	DE Name	Value
Adult Basic Education	2002	Program of Study – CIP	1532010200

Processes

1. Select student Completion = Reporting Institution (DE 1017), Term Identifier (DE 1028), and Year (DE 1028).
 - a. If CIP in (01532010200, 01532010202, 01532010300, 0152010301, 01532010207) then delete.
 - b. If Occupational Completion point indicator equal z then delete.
 - c. Set Enrollment count and OCP count equal to 1.
 - d. Get a summation of the OCP count
 - e. Divide OCP count by enrollment to calculate how many OCPs there are per enrollment.
2. Find terminal OCP
 - a. If terminal OCP is equal to “T” then set terminal count equal to 1.
 - b. Get a summation of the Terminal OCP count.
 - c. Divide Terminal OCPs by enrollment to find terminal OCPs per enrolled.
3. Find Derived Completer
 - a. If terminal OCP is equal to “T” and CTE Basic Skills Examination Flag is equal to “Y” then set Derived Completer equal to 1.
 - b. Get a summation of the derived completer count.
 - c. Find the derived completers as a percentage of enrolled.
4. Find full program Completers.
 - a. If completion degree granted is in (2, 3, 7, A) then set full program completer equal to 1.
 - b. Get a summation of full program completers.
 - c. Find the Full program completers as a percentage of enrolled.
5. Generate a report that is aggregated on the following selection criteria.

Processes

1. Select student Industry Certification = Reporting Institution (DE 1017), Term Identifier (DE 1028), and Year (DE 1028).
 - a. If certificate outcome = P then cert_pass = 1
 - b. If certificate outcome = F then cert_fail = 1
2. Sort output from step 1 by cnum, psnid, CIP, certnum, and certout with no dup key.
3. Match industry certification program, Program Industry Certification – CIP to the INDPyyyy library checking to see which programs are PERKINS.
4. Get a summation of the derived passed and failed by cnum, CIP, and certnum
5. Generate a report for each college with Program Industry Certification – CIP and program industry showing how many pass/failed test and which programs are PERKINS in each group.

	DE Number	DE Name	Value

2. Select student course = Reporting Institution (DE 1017), Term Identifier (DE 1028), and Year (DE 1028).
 - a. If Course Information Classification Structure does not equal 13201 then delete.
 - b. Sort by Term, PSNID, Course, and Section.
 - c. Set enrollment equal to 1.
3. Merge the course and completion tables together.
 - a. Set ABE Completer with Post-test, ABE Completer with no post-test, ABE post-test with no completion, and no ABE post-test with no completion point equal to default of 0.
4. Find ABE completers who have post test
 - a. If Adult Educational Post-Test Status equals “Y” and the Literacy Completion Point Indicator does not equal “Z,” then set the ABE Completers with Post-test flag equal to 1.
5. Find ABE Completer with no Post-test
 - a. If Adult Educational Post-Test Status equals “N” and the Literacy Completion Point Indicator does not equal “Z,” then set the ABE Completers with no Post-test flag equal to 1.
6. Find ABE Post-test with no Completion
 - a. If Adult Educational Post-Test Status equals “Y” and the Literacy Completion Point Indicator does equals “Z,” then set the No completion with Post-test flag equal to 1.
7. Find no ABE Post-test with no completion point.
 - a. If Adult Educational Post-Test Status equals “Y” and the Literacy Completion Point Indicator does not equal “Z,” then set the no completion and no Post-test flag equal to 1.
8. Set enrollment equal to 1.
9. Find Summation of Enrollment counts.
10. Find the summation of each respective variable.
11. Create a report that is aggregated based on the following selection criteria

	DE Number	DE Name	Value
ABE Completer With Post Test	3001	Course Information Classification Structure	13201

 - c. Sort by Term, PSNID, Course, and Section.
3. Merge the course and completion program together.
 - a. Set ESOL Completer with Post-test, ESOL Completer with no post-test, ESOL post-test with no completion, and no ESOL post-test with no completion point equal to default of 0.
4. Find ESOL completers who have post test
 - a. If Adult Educational Post-Test Status equals "Y" and the Literacy Completion Point Indicator does not equal "Z," then set the ESOL Completers with Post-test flag equal to 1.
5. Find ESOL Completer with no Post-test
 - a. If Adult Educational Post-Test Status equals "N" and the Literacy Completion Point Indicator does not equal "Z," then set the ESOL Completers with no Post-test flag equal to 1.
6. Find ESOL Post-test with no Completion
 - a. If Adult Educational Post-Test Status equals "Y" and the Literacy Completion Point Indicator does not equal "Z," then set the No completion with Post-test flag equal to 1.
7. Find no ESOL Post-test with no completion point.
 - a. If Adult Educational Post-Test Status equals "Y" and the Literacy Completion Point Indicator does not equal "Z," then set the no completion and no Post-test flag equal to 1.
8. Set enrollment equal to 1.
9. Find Summation of Enrollment counts.
10. Find the summation of each respective variable.
11. Create a report that is aggregated based on the following selection criteria

Report 10 - College Financial Aid Count

From the Student Database End-of-Term files, a file will be generated for producing the College Financial Aid Count report according to the following selection criteria. A record will be created for student.

SELECTION CRITERIA

Financial Aid Table

Financial Aid Award Type DE 3102

Processes

1. Select student Financial Aid table = Reporting Institution (DE 1017), Term Identifier (DE 1028), and Year (DE 1028).
 - a. If financial aid type is not in (101, 102, 107, or 401) then delete.
 - b. Set enrollment equal to 1.
2. Find Pell Grant total.
 - a. If Financial Aid Award type equals 101 then set Pell Grant equal to 1.
 - b. Get a summation of all Pell Grant award types.
3. Find SEOG total.
 - a. If Financial Aid Award type equals 102, then set SEOG equal to 1.
 - b. Get summation of all SEOG award types.
4. Find Work Study total.
 - a. If Financial Aid Award Type equals 401, then set Work Study equal to 1.
 - b. Get summation of all Work Study Award types.
5. Find Postsecondary Career Education Student Assistance Grant total.
 - a. If Financial Aid Award Type equals 107 then set Postsecondary Career Education Student Assistance Grant equal to 1.
 - b. Get a summation of all Postsecondary Career Education Student Assistance Award types.
6. Create a report that is aggregated based on the following selection criteria.

	DE Number	DE Name	Value
Pell Grant	3102	Financial Aid Award Type	101
SEOG	3102	Financial Aid Award Type	102
Work Study	3102	Financial Aid Award Type	401

 - a. If CIP Not in ('01532010200') then delete.
 - b. Set enrollment count equal to 1.
 - c. Sort by PSNID and Course
 - d. Set each course to its respective subject.
2. Select student Completion = Reporting Institution (DE 1017), Term Identifier (DE 1028), and Year (DE 1028).
 - a. If Literacy Completion point equals "Z" or blank, set LCP count equal to 0.
 - b. If Literacy Completion Point does not equal "Z" or blank, set LCP count equal to 1.
3. Merge the datasets with the enrollment and completion.
 - a. If the enrollment count equals 0 but the LCP count equals 1, delete.
 - b. Get a summation of the enrollment counts and LCP counts per program
4. Use the data from the merged dataset to find the LCPs per enrollment by dividing the LCP total by enrollment.
5. Generate a report that is aggregated based on the following selection criteria

Appendix A

Appendix A is to be used by colleges in reporting student enrollments and completions within Adult Education programs. Student enrollment is reported by submitting a “program” (record type 4) using the appropriate “Classification of Instructional Program” (CIP) code (DE 2002), along with the corresponding “course” (record type 6) using the appropriate “Information Classification Structure” (ICS) code (DE 3001). Completion of a segment within a program is reported by submitting a “completion” (record type 5) with the appropriate “Literacy Completion Point” (LCP). This appendix provides a list of the appropriate program (CIP) and course (ICS) codes to use, plus testing information used to award the appropriate completions (LCP).

Appendix B

Apprenticeship Sponsor Codes

Appendix B is to be used by colleges in reporting student Apprenticeship Sponsor Codes for enrollments in Apprenticeship programs. Student enrollment is reported by submitting a “program” (record type 4) and an “Apprenticeship Sponsor Code” (DE 2022).

Valid apprenticeship sponsor codes are listed in the reference file, APPREN.Ttyyyy.txt, where t = term and yyyy = reporting year. For example, the Apprenticeship sponsor code reference file name for term 1 in the 2018-19 reporting year is Appren.T12019.txt. The Bureau of Community College and Technical Center Management Information Systems (CCTCMIS) will publish on its website a reference file every term containing valid apprenticeship codes. Prior to processing submissions for a term, CCTCMIS will create the reference file by removing inactive apprenticeship sponsors if the inactive date occurs prior to May 1st for the Summer term; prior to August 1st for the Fall term; and prior to January 1st for the Winter/Spring term. The reference files and the corresponding record format will be available for download from <http://www.fldoe.org/accountability/data-sys/CCTCMIS/reference-files.stml>.

The Division of Career and Adult Education (CAE), Apprenticeship Section, maintain the apprenticeship sponsor codes. The CAE is considering posting the entire file, including “inactive” apprenticeships, on their web site.

Appendix C

Appendix C is to be used by colleges in reporting student entry level/exit test scores that are lower than the allowable range for the TABE 11-12 Adult (DE 1104 – value D) by Subtest, Difficulty Level, and Form. Student test scores are reported by submitting an “entry level/exit test” (record type 2) for the appropriate “Entry Level/Exit Test – Subtest” (DE 1103) using the corresponding “Adult Entry Level/Exit Test – Level of Difficulty” (DE 1108), “Adult Entry Level/Exit Test – Form” (DE 1107) and “Entry Level/Exit Test – Score” (DE 1101). This appendix provides a list of acceptable out of range scores for TABE 11-12 Adult.

TABE 11-12 Out of Range (OOR) Low

The test score data element (DE 1101, Entry Level/Exit Test – Score) is defined as 9(4)V99. The “V” is the nomenclature for an implied decimal point. This data element structure has two implied decimal positions. For example, a TABE score received as 1454 by the college should be submitted to CCTCMIS as 145400.
