## Facebook:

### Option #1:

#DidYouKnow? When schools, families and communities work together to support learning, students are more successful and the entire community benefits.

@EducationFL @FloridaLottery #EngagedFamiliesFL #FLedu

### Option #2:

Research suggests that family-school partnerships not only strengthen families and increase student achievement, but also improve schools and build healthy communities. Students with engaged families, regardless of demographics, are more likely to develop confidence, have better social skills, earn higher grades and test scores, have fewer behavior problems, graduate and go on to post-secondary studies.

### Option #3:

November is Family Engagement in Education month. Let's celebrate and encourage families to be engaged in their child's learning, development and well-being.
