CORONAVIRUS PREVENTION

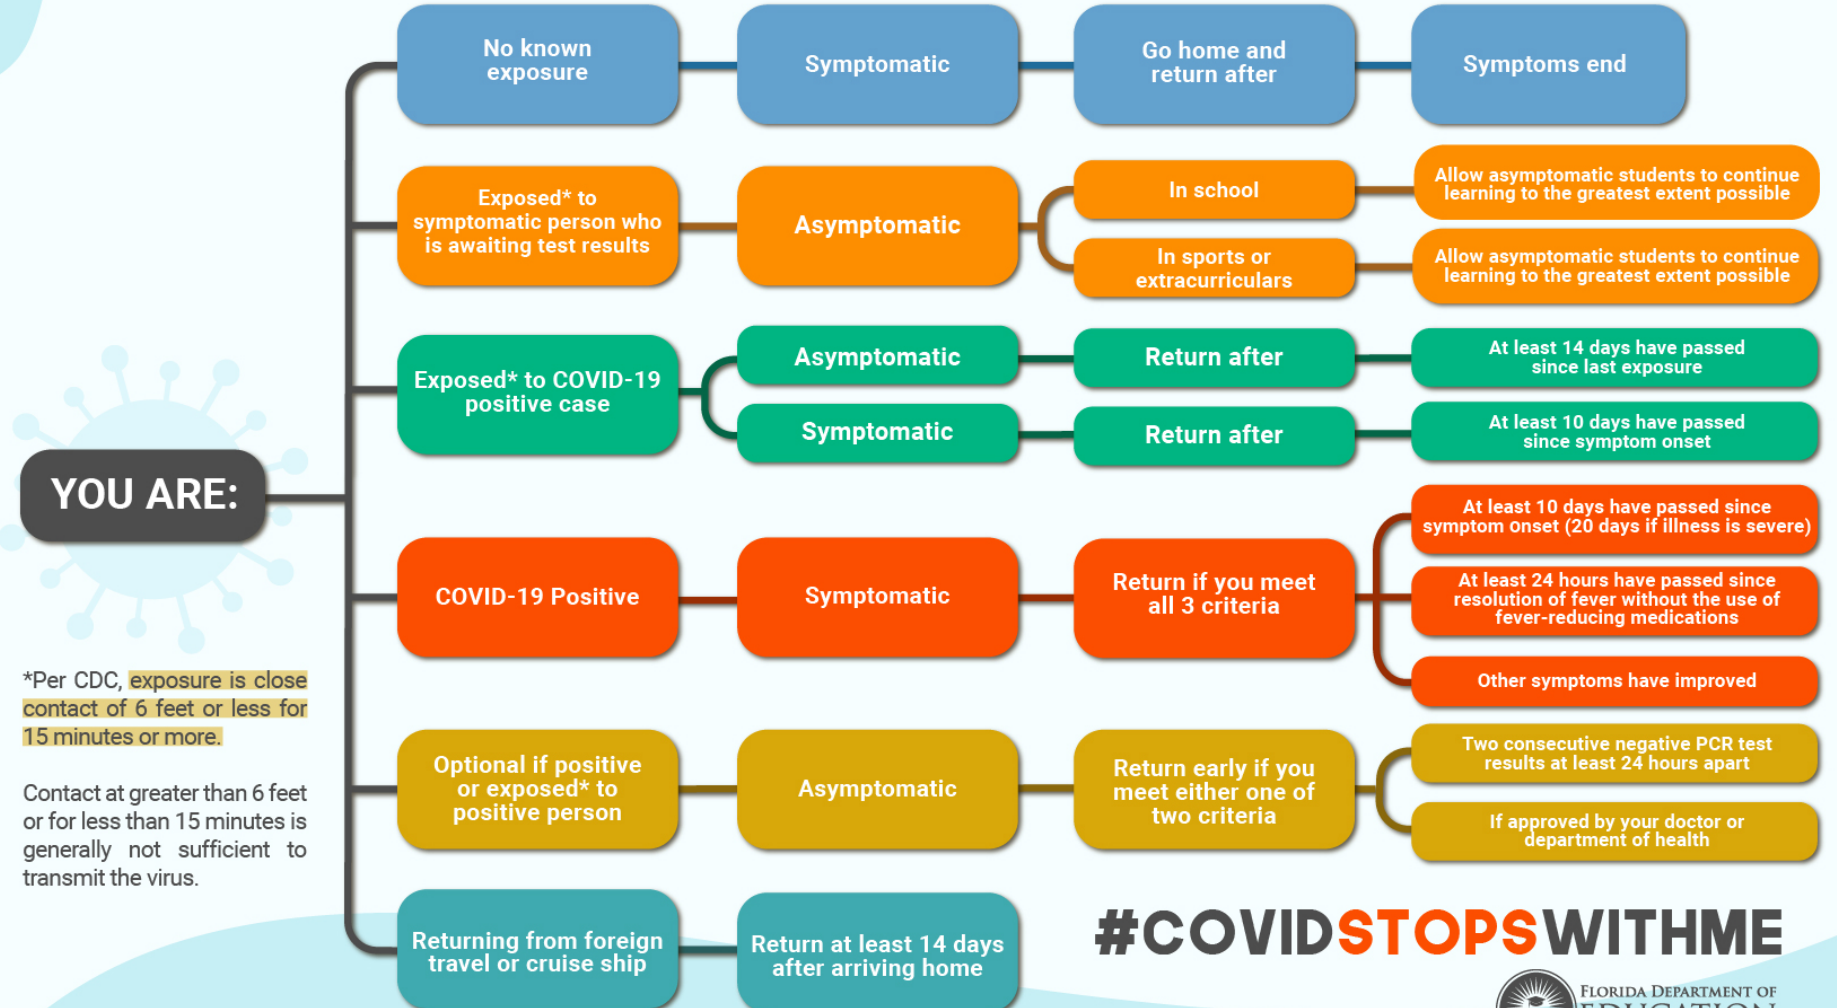

4 KEY POINTS TO REMEMBER

- 1** If you feel sick or see symptoms of sickness, stay home or send home.
- 2** Protect the vulnerable.
- 3** If a COVID-19 case arises - don't panic, be surgical not sweeping. Quickly assess and limit the impact.
- 4** Communicate, communicate, communicate.

IMPLEMENTING A SYMPTOM-BASED STRATEGY

CORONAVIRUS

SYMPTOMATIC DECISION TREE

YOU ARE:

*Per CDC, exposure is close contact of 6 feet or less for 15 minutes or more.

Contact at greater than 6 feet or for less than 15 minutes is generally not sufficient to transmit the virus.

CORONAVIRUS

EXPOSURE & CONTACT TRACING

CREATING MINIMAL DISRUPTION GUIDANCE FOR EXPOSURE & CONTACT TRACING

Simply being in the same classroom, building, or at the same event as a positive or symptomatic person does not mean someone must be contact traced and self-isolate.

To the extent possible, isolate the scope of the problem by determining who meets the CDC definition of exposed to the positive or symptomatic person.

Minimize disruption by isolating only those individuals.

NOT Exposed:

NOT Physically Close
or Close for less

REPORTING PROCESS FOR COVID-19 OCCURRENCES

- Reports will be used to keep the Commissioner regularly informed
- EM Buddy will report to Alex Jordan by 2:00 PM each day on any COVID-19 occurrences – or that there is nothing to report
- Short form has been developed for institutions to use when there is something to report
- Alex Jordan will follow up with the EM Buddies via email after this webinar
- Caleb Hawkes is back up for Alex and his contact information will be included in the email
- Chancellor Hebda is available any time a president has a question or something to report
