1. District Number must be numeric in the range 01-68 or 71-75 and must be correct for the district submitting the data. -record rejected-

## **EXAMPLE**

The first two records listed below would be loaded to the database assuming no other reject rule would cause their rejection. The third record would be rejected because the District Number submitted is not in the acceptable range.

|          | Social    |
|----------|-----------|
| District | Security  |
| Number   | Number    |
| 03       | 123456789 |
| 03       | 123456782 |
| * 00     | 123456781 |

#### DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the database, the district must correct the District Number and resubmit the record for processing.

2. Social Security Number (SSN) must be numeric and greater than zero, excluding the value 99999999, unless it is a Staff Number Identifier and the first two positions are "CS" and the last seven positions are numeric. Nine-character SSN's should be left-justified, with a trailing blank. -record rejected-

## **EXAMPLE**

Social Security Numbers of 0000000000 and (blank)504767954 would cause each record to be rejected. The first number is incorrect because it is not greater than zero. The second is incorrect because it is right-justified rather than left-justified.

#### DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the database, the district must correct the Social Security Numbers by making them numeric, greater than zero and left-justified. Resubmit the records for processing.

3. Survey Period Code must be correct for the submission specified by the district and must be 2 or 3. -record rejected-

#### **EXAMPLE**

The Survey Period Code as specified in the transmission JCL is identified as Survey Period Code "2" and the records are coded as Survey Period Code "3." All updates, adds, or deletes that have this inconsistency are rejected.

#### DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the database, the district must correct the Survey Period Code either on the records coming in or in the JCL and resubmit the records for processing.

4. Fiscal Year must be correct for the submission specified by the district. -record rejected-

## **EXAMPLE**

Similar to the edit for Survey Period Code, both the Fiscal Year on the JCL and the records being submitted for processing must match.

#### DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the database, the district must correct the Fiscal Year either on the JCL or the records being submitted and resubmit the records for processing.

5. School Number, Primary/Home must exist on the Master School Identification File as a valid active school in the district of submission. -record rejected-

#### **EXAMPLE**

School Number, Primary/Home 0661 is submitted for District Number 01. Since this School Number, Primary/Home is not found on the Master School Identification File for district 01, the record would be rejected.

## DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the database, the district must correct the School Number, Primary/Home and resubmit the record.

6. Job Code, Primary must equal one of the codes on the Job Code Assignments table as listed in Appendix E of the <u>DOE Information Database Requirements: Volume II--</u>Automated Staff Information System Manual. -record rejected-

#### **EXAMPLE**

The two records listed below would not be loaded to the database because the Job Code, Primary codes reported are not on the Job Code Assignments table.

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

#### DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the database, the district must correct Job Code, Primary by reporting a valid number from the Job Code Assignments table and resubmit the records for processing.

7. Job Code FTE must be numeric, greater than or equal to zero, and less than or equal to 100. If Job Code FTE is not equal to zero, then it must be greater than 004. - record rejected-

#### **EXAMPLE**

The three records listed below would not be loaded to the database. The first record would be rejected because the Job Code FTE is not numeric. The second record would be rejected because the Job Code FTE is blank. The third record would be rejected because the Job Code FTE is greater than 100.

<sup>\*\*\*\* =</sup> Valid fiscal year for data submission.

#### DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the database, the district must correct the Job Code FTE and resubmit the records for processing.

8. Each of the three Job Code Fund Source codes must be one of the following: B, C, E, G, H, M, N, O, P, Q, R, S, T, U or zero. -record rejected-

#### **EXAMPLE**

The two records listed below would not be loaded to the database. The first record would be rejected because the Job Code Fund Source of "Z" is not a valid code. The second record would be rejected because only the first of the three Job Code Fund Source codes is supplied and the last two are left blank.

## 9. Each of the three Job Code Fund Source percentages must be numeric and greater than or equal to zero. -record rejected-

#### **EXAMPLE**

The two records listed below would not be loaded to the database. The first record would be rejected because Z's rather than zeros are placed in the percentage positions. The second record would be rejected because only the first Job Code Fund Source percentage is included and the last two are left blank.
