**EARN WHILE YOU
LEARN!!!**

APPRENTICESHIP TRAINING

Apprenticeship is a combination of on-the-job training (OJT) and related classroom instruction under the supervision of a journey-level craft person or trade professional in which workers learn the practical and theoretical aspects of a highly skilled occupation. After completing an apprenticeship program, the worker's journey-level status provides an additional benefit of nationwide mobility at journey level scale. All programs are state and federally registered.

We highly encourage all trade school graduates, high school seniors and parents to attend this event for an exciting career opportunity. With the rising cost of college tuition, our programs offer tuition free education with competitive wages and benefits along with guaranteed pay raises.
