Module 6

Data Review

Protocol for Data Review

At your table, use the protocol to:

- examine the data
- describe the data
- interpret the data
- reflect on the implications of the data
- reflect on the data
- reflect/debrief on the process

Reflection

Reflect on the process of using this protocol.

How can you use this protocol with teachers that you are coaching?

What is the benefit for our students if teachers use this protocol to review data?
