

## Summer Programs and McKay

With spring break behind us, summer and the end of the school year aren't far behind. Here are the answers to some questions parents frequently ask about summer programs and the McKay Scholarship.

**Q. There is still some money left from my child's scholarship amount for this year. Can it be used towards a summer program for my child?**

A. It may be possible for the remaining amount to be used towards a summer program at a participating private school. Summer school must be included as an option on the school's fee schedule. For specific questions, the school should contact their Regional Manager in our office.

**Q. Can I enter my child in summer school provided by the local public school district to keep up her skills?**

A. No. Enrollment in an academic public school summer class is considered a return to public school and would make your child ineligible for the McKay Scholarship.

**Q. My son is ready for driving lessons. Can he take a drivers' ed course at the local high school if we pay the fee ourselves?**

A. We recommend parents interested in drivers' ed or other non-academic courses conducted at a public school make sure that the program is not funded through the Florida Educational Finance Program (FEFP) and that the student will not be entered by the school district as returning to public school. You may even want to ask for this confirmation in writing as a precaution.

**Q. My daughter wants to take Chinese, which is not offered at her private school. Can she take a course online over the summer?**

## Going through Changes?

### Update your info — it's easy!

If you have changes in your contact information, do let us know right away so we can keep you informed on issues involving your child. You can keep your address, email, and phone number up-to-date through the Parent Login on our main webpage. Once logged in, you'll see: "Click here to Change your Contact Information." Simply enter any changes and click "Save Changes." If you want to change or correct your name or Social Security Number, though, you'll need to get a Guardian Issue Form from your school. This is the same form that's used to change the person who will be signing the scholarship payment checks. Don't delay in reporting any changes to this critical information, or you just may miss a quarterly payment!

The goal of [Help Me Grow Florida](#) is to promote healthy development for every child in our state. Help Me Grow (HMG) is a unique, comprehensive, and integrated statewide system designed to address the need for early identification of developmental and/or behavioral concerns, and then to link children and their families to

A. Yes. A student may take up to two courses from FLVS or a part-time district virtual program without jeopardizing scholarship eligibility.

## Planning for Next Year

Once your child is a McKay student, his scholarship status will continue until he graduates, turns 22, or returns to public school, so there's no need to file a new Intent to continue in the scholarship program. And if you're planning on your student remaining at the same private school next fall, just be sure he is re-enrolled at his current school at the end of the school year.

If, however, you have concerns regarding your child's experience in her current private school, you do have options. If you wish, you can transfer your child to another participating private school. You may make the transfer at any time during the school year, but it may be simplest to do so at the end of the year. To be eligible for 100% of your child's scholarship amount next year, the new school must enroll her by August 2nd.

You also have the option of transferring your child back to public school, either as a public school McKay scholarship student or as a regular student. However, doing so will forfeit the private school scholarship. If you wish your child to return to private school at a later time a new Intent must be filed, and the student will need to meet all eligibility criteria, including prior year public school attendance, as well as having an active IEP or 504 plan and being enrolled in public school at the time of filing.

## Re-evaluation

If your child had an Individual Education Plan (IEP) developed in public school and has been in the McKay Scholarship Program for a while, you may have received an offer for a re-evaluation from your school district. Federal law requires school districts to offer re-evaluation to all Exceptional Student Education (ESE) students at least every three years. This applies to ESE students in private schools as well, including McKay Scholarship students. The district has to document that they have made the offer, but the parent has the option of agreeing or refusing to have a child re-evaluated.

Once a student is no longer in public school, the IEP is not active. Having your student re-evaluated will not result in a change to your child's matrix, funding, or McKay Scholarship status. However, a re-evaluation can provide you with a picture of your child's current

community-based developmental and behavioral services and supports.

Early detection and intervention are critical for optimal outcomes for children. Help Me Grow assists families by building collaboration among community programs, providing a centralized access point for information and referral, promoting surveillance and screenings, as well as educating and informing the community.

The [18th Annual Family Cafe](#) is set for June 10-12, 2016 at the Hyatt Regency Orlando. This three-day event provides a venue for people with disabilities and their families to learn about available services, connect with policy makers and network with each other. It features dozens of breakout sessions, a full Exhibit Hall, a series of Keynotes and multiple opportunities to interact with other families informally.

There is no registration fee for individuals with disabilities and their family members or caregivers. Professionals are required to pay a \$150 registration fee.

To make a hotel reservation for the event, call the Hyatt Regency at 800/233-1234 or you can visit the Hyatt's special room reservation site at <https://resweb.passkey.com/go/FamilyCafe2016>.

## Other Resources

learning needs. As with the IEP, a private school is not required to adhere to the recommendations of the re-evaluation, but it may be a helpful starting point in planning for the services and support that will help your child to achieve his best.

If you have questions about the re-evaluation process, or if you would like more information, we recommend that you contact your local public school district's ESE office.

The goal of [VSA Florida](#) is to create a world in which the arts are universally accessible.

[The Center for Autism and Related Disabilities](#) provides support and assistance with the goal of optimizing the potential of people with autism and related disabilities.
