Florida's Private Schools

ANNUAL REPORT 2006-2007

Office of Independent Education and Parental Choice Florida Department of Education

August 2007

Increasing the Quantity and Improving the Quality of Educational Options

Florida's Private Schools

A private school is defined in Section 1002.01(2), Florida Statutes, as "an individual, association, copartnership, or corporation or department, division, or section of such organizations, that designates itself as an educational center that includes kindergarten or a higher grade" and is below the college level. Private elementary and secondary schools in Florida are not licensed, approved, accredited, or regulated by the Florida Department of Education. Private schools are required by statute to complete an annual online survey to gather information for inclusion in a statewide Directory of Private Schools.

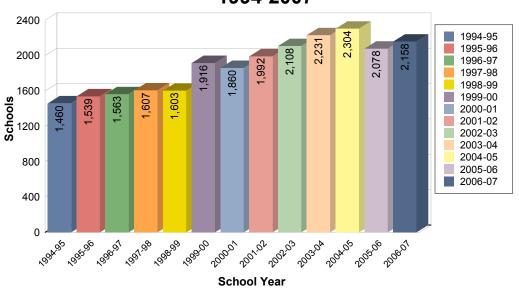

The Directory of Private Schools is maintained by the Department of Education as a service to the public, to governmental agencies, and to other parties that are interested in obtaining information about Florida private schools. The Department's intent in maintaining the directory is not to regulate, control, approve or accredit private schools. As such, the accuracy of data submitted pursuant to the annual online survey and inclusion of a school's information in the directory is not verified by the Department and does not imply approval or accreditation. The directory may be accessed online at: http://www.floridaschoolchoice.org/Information/directory/schoolreport.asp.

Private School Instructional and Administrative Personnel 2006-2007

The reported personnel data are based on the Private School Data Base Survey on seven personnel types: pre-k teacher, kindergarten teacher, elementary teacher (grades 1-6), secondary teacher (grades 7-12), librarian and media specialist, guidance personnel, and administrator. Support personnel such as secretaries, aides, paraprofessionals, and volunteers are not included. Statistics for personnel in the named areas reflect actual numbers of such individuals but do not indicate the full range of duties they may perform. Reporting instructions requested that full-time employees who have responsibilities in more than one area be reported in the category where they spend the majority of their time.
