**PURPOSE:**

To provide for the payment of estimated debt service obligations and State Board of Administration fees associated with the issuance of bonds to fund capital outlay programs that provide facilities for the delivery of educational programs.

**PROGRAM DESCRIPTION:**

The PECO Bond Program is funded from gross receipts tax revenues and through the issuance of bonds. These bonds are issued by the state to fund educational facility building programs for public school districts, Florida colleges, state universities, and other education agencies. The estimated annual debt service requirements are based on the most current PECO Revenue Estimating Conference bonding projections and outstanding debt service obligations. Estimated State Board of Administration fees are also included.

The CO&DS Bond Program is funded from motor vehicle license tax revenues and through the issuance of bonds. This program assists with the funding of educational facility projects undertaken by the Florida colleges and public school districts. The annual debt service amount requested is based upon the outstanding debt service obligations, and estimated debt service requirements associated with additional bonds to be issued during the current and subsequent fiscal years. Estimated State Board of Administration fees are also included.

The University System Improvement Revenue Bonds are supported by student building fees and capital improvement fees. These bonds are issued to provide funds for the building programs of the state universities. The estimated annual debt service requirements are based upon outstanding debt service obligations, and estimated debt service requirements associated with the issuance of additional bonds. Estimated State Board of Administration fees are also included.

**PURPOSE:**

To provide for the payment of debt service obligations, estimated State Board of Administration fees, and project expenditures associated with the Classroom First Program. This program was established to provide permanent classroom facilities in the public school districts.

**PROGRAM DESCRIPTION:**

The Classrooms First and 1997 School Capital Outlay Bond Programs were funded from lottery revenues and through the issuance of bonds supported by lottery revenues. The Classrooms First Program was established to provide funds for permanent classroom facilities to school districts that certify the five-year capital outlay work plan contains unmet needs for such educational facilities.

The annual amount requested is based upon outstanding debt service obligations and estimated State Board of Administration fees, plus the cash payments of \$963,242 to selected districts for project expenditures.

Pursuant to Section 1013.71(2), Florida Statutes, lottery funds appropriated for fixed capital outlay and debt service purposes are to be transferred from the Educational Enhancement Trust Fund to the Lottery Capital Outlay and Debt Service Trust Fund. The transfer is accomplished during the budgetary start-up process at the beginning of the fiscal year.

**PURPOSE:**

To acquire, construct, alter, remodel, improve, enlarge, furnish, equip, maintain, renovate, or repair educational facilities to enhance the learning environments of the public school districts and Florida colleges.

**PROGRAM DESCRIPTION:**

The CO&DS Program receives motor vehicle license tax revenues for educational facilities. Public school districts and Florida colleges may use these funds to acquire, construct, alter, remodel, improve, enlarge, furnish, equip, maintain, renovate, or repair educational facilities that are included on a project priority list approved by the Department of Education. Public school districts and Florida colleges may also elect to bond their share of the motor vehicle license tax revenue, if they have sufficient bonding capacity after the deduction of debt service obligations and administrative fees.

Revenues are allocated to all school districts and Florida colleges based upon a constitutional funding formula. This formula provides \$600 for each instruction unit for the 1967-68 base year and \$800 for each growth instruction unit (the increase of the current year from the 1967-68 base year) for school districts. Both base units and growth units for the colleges are valued at \$400.

The annual appropriation requested reflects the cash from motor vehicle license tax revenues that a local school district or Florida college is eligible to receive after debt service payments and administrative fees have been paid (flow-through revenue). Funds remaining after the deduction of administrative fees and debt service amounts are transferred twice a year to the public school districts and colleges as flow-through funds available for capital outlay projects that are included on a project priority list approved by the Department of Education.

**ISSUE NARRATIVE:**

**EDUCATION CAPITAL PROJECTS**

An amount of \$25,391,705 for FY 2013-14 is requested to match private contributions already received for the development of high-priority instructional and community-related capital facilities. This amount is approximately 37% of the unmatched donations from 2008 through June 29, 2011, and is being requested on behalf of the Florida College System's Council of Presidents. A list of eligible projects are included.

Florida's colleges do not have sufficient educational facilities to meet current demands of their instructional and community programs. To strengthen and enhance colleges, it is necessary to provide additional facilities. The Community College Facility Enhancement Challenge Grant Program was established to obtain matching funds from private resources equivalent to 50% of the total project cost.

**STATUTORY REFERENCES:**

Section 1011.32, Florida Statutes

**PURPOSE:**

To provide a means for Florida's colleges to solicit funding from private sources and local governments to be matched by the state for the purpose of developing high-priority instructional and community-related capital facilities.

**PROGRAM DESCRIPTION:**

Pursuant to Section 1011.32, Florida Statutes, the 50/50 matching grant program supports the instructional and community-related capital facilities that are survey-recommended and are included in the college's Capital Improvement Program. The matching program benefits the state with the donations, helping to reduce the future need for the state's limited financial resources and funding projects earlier at a lower cost.

Florida's colleges make initial requests based on what is anticipated to be collected for eligible projects and a challenge grant program list is developed for the budget request. The requests are approved by the board of trustees for each college. The colleges have to certify that the actual cash for the projects is receipted in a separate capital facilities matching account by February 1 of each year. A revised list is subsequently submitted to the Governor and Legislature for funding consideration. The Commissioner and State Board of Education will support the full funding of the actual collections, as specified in Section 1011.32, Florida Statutes.

Since the Community College Facility Enhancement Challenge Grant Program was established in fiscal year 1997-98, the program has provided an additional \$362,477,784 (private contributions of \$181,238,892 and state matching funds of \$181,238,892) to assist in constructing instructional and community-related facilities at the Florida colleges. In fiscal year 2007-08, a total of 28 projects were funded at 12 colleges, for a total state match of \$48,520,477. In fiscal year 2008-09, a total of 6 projects were funded at 4 colleges, for a total state match of \$8,810,309. No funding was appropriated for this program in fiscal years 2009-10 through 2012-13.

Under Section 1011.32 (5), Florida Statutes, the Florida colleges or direct-support organizations are allowed to expend available funds from private sources to develop preliminary architectural schematics or models for raising private funds for a facility. The project costs would include site preparation, planning, and construction. Each college must notify all donors of private funds of a substantial delay in the availability of state matching funds for this program.

**PURPOSE:**

To construct and maintain a capital outlay program for the Florida colleges to serve the educational needs of their communities and a vast array of workforce/vocational programs for the economic viability of the state and its citizens.

**PROGRAM DESCRIPTION:**

Almost every Florida college has new academic programs as a result of remodeled space, or a new building funded through PECO appropriations. Each year Florida colleges complete a five-year capital improvement plan identifying

the need for construction of new educational facilities, as well as major additions, renovations, or repairs necessary to extend the useful life of buildings. These plans are reviewed by the Division of Florida Colleges' staff, and recommendations are made to fund specific projects within the limits of available funds earmarked for public educational facilities.

Section 1013.64(4)(a), Florida Statutes

**PURPOSE:**

To construct and maintain a capital outlay program for the State University System educational facilities that serves the higher education needs of the State of Florida.

**PROGRAM DESCRIPTION:**

State universities can show new academic programs that have been started, and increased enrollments that have been served, because of remodeled space or a new building funded through PECO appropriations. Each year the state universities complete a capital improvement plan identifying the need for construction of new educational

facilities, as well as major additions, renovations, or repairs, necessary to extend the useful life of buildings. These plans are reviewed by the Board of Governors staff, and recommendations are made to fund specific fixed capital outlay projects within the limits of available funds earmarked for public educational facilities.
