INTRODUCTION

| | | | |
|-------------------|------------------------|-------------------|--------------|
| DISTRICT: | GLADES | PK-12 POPULATION: | 1,388 |
| ENROLLMENT GROUP: | LESS THAN 7,000 | PERCENT DISABLED: | 15% |

The LEA profile is intended to provide districts with a tool for use in planning for systemic improvement in exceptional education programs. The profile contains a series of data indicators that describe measures of educational benefit, educational environment, prevalence, parent involvement and provides information about **district performance as compared to state level targets in Florida's State Performance Plan**. Required by IDEA 2004, the State Performance Plan (2005-2010) is a six-year plan that establishes annual benchmarks and targets for 20 indicators. Annual Performance Reports are submitted to report progress in these performance areas and the process requires annual public reporting for the state and each local education agency.

Data in the LEA profile are presented for the district and the state. Where appropriate and available, comparative data for enrollment group and/or general education students are included. Indicators in **bold** are part of the State Performance Plan.

Data presented as indicators of educational benefit (*Section One*)

- NCLB graduation rate
- **Standard diploma graduation rate**
- **Dropout rate**
- **Postschool outcome data**

Note: Statewide assessment data (participation and performance) are published separately in the fall of each year.

Data presented as indicators of educational environment (*Section Two*)

- **Students with disabilities ages 6-21 by placement setting**
- **Children with disabilities ages 3-5 by placement setting**
- **Part C to Part B transition**
- **Secondary Transition IEPs**
- **Students with disabilities suspended/expelled for more than 10 days in a school year**

Data presented as indicators of prevalence (*Section Three*)

- **Summary information on selected state performance plan indicators**
- **State level targets**
- **District level data**

DATA SOURCES AND REPORTING

The data contained in this profile were obtained from data submitted electronically by districts through the Department of Education Information Database in surveys 2 and 5, through district and parent survey submissions, through the Florida Education and Training Placement Information Program (FETPIP), and through the Department of Health Early Steps program.

Data contained in Section One through Section Four are rounded to the nearest whole number. Because rounding is not used in determining if SPP targets have been met, data in Section Five contains as many decimal places as are needed to determine if targets have been met.

DISTRICTS IN GLADES'S ENROLLMENT GROUP:

BAKER, BRADFORD, CALHOUN, DESOTO, DIXIE, FRANKLIN, GADSDEN, GILCHRIST, GLADES, GULF, HAMILTON, HARDEE, HOLMES, JEFFERSON, LAFAYETTE, LEVY, LIBERTY, MADISON, SUWANNEE, TAYLOR, UNION, WAKULLA, WASHINGTON, DOZIER/OKEECHOBEE, FAMU LAB SCHOOL, FAU LAB SCHOOL, FL CONNECTIONS, FSDB, FSU LAB SCHOOL, FL VIRTUAL ACADEMY, UF LAB SCHOOL

SECTION ONE: EDUCATIONAL BENEFIT

Educational benefit refers to the extent to which children benefit from their educational experience. Progression through and completion of school are dimensions of educational benefits as are postschool outcomes. This section of the profile provides data on indicators of school completion and postschool outcomes.

NO CHILD LEFT BEHIND (NCLB) GRADUATION RATE:

The number of first-time ninth graders from four years ago, plus incoming transfer students on the same schedule to graduate, minus students from this population who transferred out or left to enroll in a private school, home education, or adult education, divided into the number of standard diploma graduates from the same group. The resulting percentages are reported for the three-year period from **2004-05** through **2006-07** for students with disabilities and all students. The NCLB graduation rate data lag one year behind other graduation data presented in this profile.

| | Students with Disabilities | | | All Students | | |
|------------------|----------------------------|---------|---------|--------------|---------|---------|
| | 2004-05 | 2005-06 | 2006-07 | 2004-05 | 2005-06 | 2006-07 |

| State | 37% | 37% | 38% | 69% | 68% | 70% |

STANDARD DIPLOMA GRADUATION RATE:

The number of standard diploma graduates divided by the number of students with disabilities who completed their education (received either a standard diploma, GED, special diploma, certificate of completion or special certificate of completion) or dropped out. This graduation rate is calculated based on the total number of students with disabilities who exited school in a given year, rather than using the four-year cohort model described in the NCLB graduation rate. The data are reported for the three year period from **2005-06** through **2007-08**.

| Enrollment Group | 35% | 40% | 48% |
| State | 39% | 40% | 45% |

DROPOUT RATE:

The number of students grades 9-12 for whom a dropout withdrawal reason (DNE, W05, W11, W13-W23) was reported, divided by the total enrollment of grades 9-12 students and students who did not enter school as expected (DNEs) as reported at the end of the school year (survey 5). The resulting percentages are reported for students with disabilities, all students, students identified as emotionally/behaviorally disabled (EBD), and students identified as specific learning disabled (SLD) for the years **2005-06** through **2007-08**.

POSTSCHOOL OUTCOME DATA:

The Florida Education and Training Placement Information Program (FETPIP) is an interagency data collection system that obtains follow-up data on former students. The most recent FETPIP data available reports on students who exited Florida public schools during the **2006-07** school year. The table below displays percentage of students with disabilities exiting school for the three-year period from **2004-05** through **2006-07** who were found employed between October and December following their exit or in continuing education (enrolled for the fall or preliminary winter/spring semester following their exit). Finally, an unduplicated percentage of students who are found employed and/or continuing education is included. In this case, a student who is found both employed and in continuing education is counted only once.

SECTION TWO: EDUCATIONAL ENVIRONMENT

Indicators related to educational environment address the extent to which students with disabilities receive special education with their nondisabled peers, timely transition from Part C programs to Part B programs, secondary transition IEPs, and risk ratios of out-of-school suspensions/expulsions for students with disabilities when compared to nondisabled peers.

REGULAR CLASS, RESOURCE ROOM, SEPARATE CLASS PLACEMENT, AND OTHER SEPARATE ENVIRONMENTS, AGES 6-21:

The number of students with disabilities ages 6-21 in regular class, resource room, separate class, and other separate environment, divided by the total number of students with disabilities ages 6-21 reported October (survey 2). Regular class includes students who spend 80% or more of their school week with nondisabled peers. Resource room includes students spending between 40% and 80% of their school week with nondisabled peers. Separate class includes students spending less than 40% of their week with nondisabled peers. Other separate environment includes students served in public or private separate schools, residential placements or hospital/homebound placements. The resulting percentages are reported for the three years from **2006-07** through **2008-09**. Students

served in corrections facilities and students enrolled by their parents in private schools who are receiving special education and/or related services from the LEA are not included in this calculation.

| | | Regular Class | | | Resource Room | | |

| | State | 22% | 18% | 17% | 2% | 3% | 4% |

EARLY CHILDHOOD EDUCATION SETTINGS, AGES 3-5:

The number of students with disabilities ages 3-5 attending a regular early childhood program or kindergarten at least 80% of the time, between 40% and 79% of the time, and less than 40% of the time, children attending a special education program at a regular school campus or community-based setting, and children in other environments, divided by the total number of students with disabilities ages 3-5 reported in October (survey 2). Students attending a regular early childhood program or kindergarten are those who spend any time in a program that includes at least 50% nondisabled children. Students attending a special education program are those who are served in programs that include less than 50% nondisabled children on a regular school campus or community-based setting. Students in other environments include those served at separate schools, residential facilities, at home, or at a service provider location. The resulting percentages are reported for **2006-07** through **2008-09**.

PART C TO PART B TRANSITION

The number of children referred for eligibility determination by Part C prior to age 3, who are found eligible for Part B, and who have an IEP developed and implemented by their third birthdays, divided by the number of children served in Part C and referred to Part B for eligibility determination (not including children determined to be ineligible for Part B prior to age 3 or children for whom parent refusal to provide consent caused delays in evaluation or initial services). The resulting percentages are reported for **2005-06** through **2007-08**.

| | | IEP Developed and Implemented by 3rd Birthday | | |
|------------------|--------|---|---------|---------|
| | | 2005-06 | 2006-07 | 2007-08 |
| Enrollment Group | Glades | 0% | N/A | 100% |
| | State | 32% | 69% | 90% |

SECONDARY TRANSITION IEPs:

The number of transition IEPs reviewed as part of the ESE Compliance Self-Assessment which were found compliant, divided by the total number of transition IEPs reviewed. The resulting percentages are reported for **2007-08**.

| | | |
|--------|---------------------------------|--|
| | Transition IEPs Found Compliant | |
| | 2007-08 | |
| Glades | 0% | |
| State | 24% | |

DISCIPLINE RATES AND RISK RATIOS:

Discipline rates are calculated by dividing the number of students who received out-of-school suspensions or expulsions that total more than 10 days by total-year enrollment as reported at the end of the school year (survey 5). Discipline rates are calculated for both students with disabilities and nondisabled students. Discipline risk ratios are calculated by dividing the discipline rate of students with disabilities by the discipline rate of nondisabled students. Risk ratios indicate the risk that students with disabilities will be suspended/expelled for greater than 10 days compared to nondisabled students. A risk ratio of 1.0 indicates that students with disabilities and nondisabled students are equally likely to be suspended/expelled. The resulting rates are reported for students with disabilities and nondisabled students for three years from **2005-06** through **2007-08** along with risk ratios for students with disabilities.

| | | Suspended/Expelled For Greater than 10 Days | | | | | | | | |

| | | Students with Disabilities | | | Nondisabled Students | | | Risk Ratio | | |

| State | | 2% | 1% | 1% | <1% | <1% | <1% | 1.8 | 1.6 | 1.6 |

SECTION THREE: PREVALENCE

Indicators relative to the prevalence of students with disabilities include the percentage of students evaluated within 60 days, student membership by racial/ethnic category, and risk ratios of racial/ethnic groups being identified as disabled.

EVALUATION WITHIN 60 DAYS

The number of students with parental consent to evaluate who were evaluated within 60 days of referral, divided by the total number of students with parental consent to evaluate in a given school year as reported via school district survey. The data are reported for **2005-06** through **2007-08**.

| | | 2005-06 | 2006-07 | 2007-08 |
|------------------|--|---------|---------|---------|

| Enrollment Group | | 94% | 97% | 98% |
| State | | 91% | 93% | 94% |

STUDENT MEMBERSHIP BY RACIAL/ETHNIC CATEGORY:

The two columns on the left show the statewide racial/ethnic distribution for all PK-12 students and all students with disabilities as reported in **October 2008** (survey 2). Statewide, there is a larger percentage of black students in the disabled population than in the total PK-12 population (26% vs. 23%). Similar data for the district are reported in the two right-hand columns.

| | State | | District | |

SELECTED DISABILITIES BY RACIAL/ETHNIC CATEGORY:

Racial/ethnic data for all students as well as students with a primary disability of SLD, EBD, and intellectually disabled (IND) are presented for the district and state as reported in **October 2008** (survey 2).

| | All Students | | SLD | | EBD | | IND | |

RISK RATIOS FOR STUDENTS PLACED IN EXCEPTIONAL EDUCATION

The risk that students of a given race will be identified as a student with a disability or a student in selected disability categories when compared to students of all other races. A risk ratio of 1.0 indicates the students of a given race are equally likely as all other races combined to be identified as disabled. A risk ratio of 0.00 indicates that either the race of interest or the sum of all other races is equal to zero. In calculating risk ratios, students reported as multiracial are prorated across other racial/ethnic categories. The data are presented for all students with a disability, students who are identified as IND, EBD, or SLD, and students who are identified as having autism spectrum disorder (ASD), speech or language impairments (SI-LI), other health impaired, or homebound or hospitalized (OHI-HH). The data are presented for the district and the state as reported in **October 2008** (survey 2). An asterisk indicates less than 30 students of a specific race/ethnicity with the given disability.

SECTION FOUR: PARENT INVOLVEMENT

PARENT SURVEY

Response rates refer to the number of parents of children with disabilities responding to a parent survey, divided by the number of surveys sent. The parent involvement rate is the number of parents reporting that schools facilitated parent involvement as a means of improving services and results for children with disabilities, divided by the total number of responding parents. These data are reported for parents of preschool children with disabilities and parents of children with disabilities in grades K-12 for **2005-06** through **2007-08**.

| | | Preschool | | | | | |
|------------------|--------|---------------|-------------------------|---------------|-------------------------|---------------|-------------------------|

SECTION FIVE: SELECTED STATE PERFORMANCE PLAN INDICATORS

The following table includes selected state performance plan indicators, the state targets for 2007-08 for these indicators, district data, and whether or not the district met the target. State targets are presented in **bold**. Because rounding is not used in determining if targets have been met, LEA data contain as many decimal places as needed to determine if the target has been reached. If, for example, 3.9% of students with disabilities in a given district drop out of school, the district will not be considered as having met the target of 4.0%. For indicators 4, 9, and 10, an "N" in the Target Met column means that a district's data contributed to Florida not making the state target.

| Indicator | | 2007-08 State-Level Target | LEA Data | Target Met |
|-----------|---|---|----------|------------|
| 1 | Graduation rate | The percentage of students graduating with a standard diploma will increase to 40.3% . | 23.08% | N |

| 9 | Disproportionality in Special Education | In 0% of districts with disproportionate representation of racial and ethnic groups in special education and related services, the disproportionality can be attributed to inappropriate identification. | | Y |

| 11 | Evaluation within 60 Days | 100% of students referred, with parental consent, for evaluation are evaluated within 60 school days of which the student is in attendance. | 100.0% | Y |
