MEMORANDUM

TO: Career and Technical Education Directors

FROM: Loretta Costin 

SUBJECT: Access to Florida Education & Training Placement Information Program (FETPIP) Reports

Reports that track the post-completion outcomes of your career and technical education students are available at the following site: <http://www.fldoe.org/fetpip/sec.asp> . For each annual completer cohort, there are two reports available: by program statewide and by district and program. The cohorts are composed of high school graduates who have earned at least one Occupational Completion Point. Each report is available in PDF and Excel format. If you want to change, copy, or perform any analysis on the data in the reports, you will need to use the Excel version.

Since the reports are final and read-only, you will have to click on the Office button, find the Prepare menu, and click on "Mark as Final" to toggle it off and unlock the report for editing. You may want to extract your district data and post it online to make the information available to local stakeholders.

Each report includes the following data:

1. Number of completers in the cohort.
2. Number and percentage found employed.
3. Number and percentage found employed fulltime.
4. Full quarter average earnings.
5. Number and percentage placed in jobs identified as related to training.

6. Number and percentage found in continuing education.
7. Number found in the military.
8. Total number found employed, in continuing education, or in the military.
9. Total number placed in jobs, including the military, related to training.
10. Placement rate (#9 divided by #8).

If you have any questions about how to access or use these reports, please contact Mark Baird at 850-245-9060 or mark.baird@fldoe.org.

Thank you.
