¹ On December 12, 2012, the State Board of Education established new Achievement Level standards for the Geometry End-of-Course (EOC) Assessment. The Spring 2012 Geometry EOC Assessment scores were reported as T scores. The Spring 2012 results have been converted to the new score scale and are being provided based on the new standards so that stakeholders and the general public are able to see what they would have been if the new score scale and Achievement Levels had been approved and implemented at that time.

² To provide meaningful results and to protect the privacy of individual students, data are not reported when the total number of students in a group is fewer than 10 or when all the students in a group are in the same category (i.e., all in the same Achievement Level). An asterisk (*) appears when data are suppressed.

³ Percentages may not add to 100 due to rounding.
