

INTRODUCTION

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.
 If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.
 If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

Summary of revenue/expenditures available for new construction and remodeling projects only.

Planning

Class Size Reduction Planning

Plans approved by the school board that reduce the need for permanent student stations such as acceptable school capacity levels, redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multitrack scheduling, grade level organization, block scheduling, or other alternatives.

The Pinellas County School Board has reduced the need for permanent student stations in our district through a variety of initiatives. During the 2007-2008 school year, the district began a high school partnership Early College Program in cooperation with St. Petersburg College. The Early College Program was expanded to two additional college campuses with a total capacity of 375 students. Students in grades 11 and 12 may enroll full time in dual credit college courses held on the Clearwater Campus, Seminole Campus or Tarpon Springs Campus of SPC in order to simultaneously meet their graduation requirements and earn college credits. Early admission at St. Petersburg College for 12th grade students allows for up to 160 students to enroll full time at the SPC campus.

During the 2009-10 school year, the district launched the Pinellas Virtual School serving middle school students in grades 6-8. Pinellas Virtual School courses have expanded to include grades 9-12 for the 2011-2012 school year. All secondary curriculum is created by Pinellas Virtual School instructors. For the 2014-2015 school year, Pinellas County will provide K-5 curriculum created by Pinellas Virtual instructors. Virtual school enrollment has steadily increased each year and during the 2013-2014 school year, the district served 375 students in grades K-12. We are currently enrolling students for the 2014-2015 year and expect these enrollment trends to increase. With the added graduation requirement for high school students to complete one virtual course, virtual enrollment will continue to grow rapidly.

New magnet and application programs have been added in recent years and placed in schools with capacity to enroll additional students, while reducing the need for permanent student stations at more crowded schools. Current magnet and application programs will be evaluated annually for their impact on permanent student stations and changes may be recommended to the School Board for future consideration.

Schools are staffed based on the development of master schedules to maximize use of all classroom space each period of the day to reduce the need for additional full time student stations.

School Closure Planning

Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.

Projections for Pinellas County Schools indicates flat to slightly increased enrollment. With the mandated high school career academies, the class by class requirement for the class size amendment, a plan to reduce the number of leased relocatables, and the district's plan to increase magnet school offerings, PCS hopes that no additional schools, beyond those closed in 2009, will need to be closed. The School District reopened two closed elementary schools as Magnet Schools, and a new middle school magnet site in 2014-15. Enrollment data indicates these schools have attracted new students to the district.

Ten-Year Infrastructure Planning

Proposed Location of Planned New, Remodeled, or New Additions to Facilities in 06 thru 10 out years (Section 28).

The 2014-15 survey document lists many more construction opportunities than the district can either afford or expect to complete in a period of five years. Consequently, some projects listed in this survey will carry over into subsequent survey cycles and be updated to reflect needs at that time. Specific projects can be identified following the development of the workplan for the current cycle.

Plans for closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues in the 06 thru 10 out years (Section 29).

Additional plans for school closures and identification of future facility and property utilization or disposal will be determined subject to projects completed from the 2014-15 workplan and actual school COFTE figures.

Twenty-Year Infrastructure Planning

Proposed Location of Planned New, Remodeled, or New Additions to Facilities in 11 thru 20 out years (Section 28).

With an expected increase in COFTE at all grade levels, the district will continue to replace older facilities. These replacement facilities will probably be located in south to mid county and in the urban areas of the county, where aging schools are more prevalent. Except in areas of growth, replacement schools may continue to be constructed less than full size, with core facilities built at full size on a master planned site.

Plans for closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues in the 11 thru 20 out years (Section 29).

If COFTE increases as expected, no schools should need to be closed.
