

**INTRODUCTION**

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.

If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.

If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

**Infrastructure Tracking**

Necessary offsite infrastructure requirements resulting from expansions or new schools. This section should include infrastructure information related to capacity project schedules and other project schedules (Section 4).

New schools are listed below:

1. School EE (Allapattah Flats K-8) will be located within the Copper Creek PUD. Developer provided sidewalks and roadway improvements will meet the necessary infrastructure needs.
2. East Bus Compound. Turn lanes and possible roadway/ turn lanes and traffic signal improvements along Walton Road may be necessary.
3. New HS AAA will be located in PGA/Montage. The City is constructing the cross-town parkway and access roadway. Signalization and construction of these City and developer funded roadway/signal improvements is necessary.
4. New HS BBB location has not been determined. Current planning in NW Port St. Lucie may yield a location for the school. Once that location is determined, necessary infrastructure will be addressed.
5. New K-8 FF is anticipated in SW Port St. Lucie. The former Southbend Estates PUD is the preferred location at this time. Turn lanes and possible signalization on Southbend Boulevard will be necessary. Some sidewalks for the neighborhood streets are desired and may be necessary.
6. New K8- GG is planned for the SW Port St. Lucie annexation area. Negotiations on impact fee agreement and development schedules with the western annexation DRI's will determine the location. Turn lanes and possible signalization on access/entrance roads may be necessary.
7. Elementary School A. TBD.

**Proposed location of planned facilities, whether those locations are consistent with the comprehensive plans of all affected local governments, and recommendations for infrastructure and other improvements to land adjacent to existing facilities. Provisions of 1013.33(12), (13) and (14) and 1013.36 must be addressed for new facilities planned within the 1st three years of the plan (Section 5).**

The school board has been working with local government on the siting of schools within developments. Land acquisition included a consistency review by local government prior to exercising sale & purchase option agreements for real estate. All sites are consistent with the comprehensive plan or have developer obligations to make them consistent prior to the school board acquiring the land.

Recommendations for infrastructure are:

1. School EE (Allapattah Flats K-8) will be located within the Copper Creek PUD. Developer provided sidewalks and roadway improvements will meet the necessary infrastructure needs.
2. East Bus Compound. Turn lanes and possible roadway/ turn lanes and traffic signal improvements along Walton Road may be necessary.
3. New HS AAA will be located in PGA/Montage. The City is constructing the cross-town parkway and access roadway. Signalization and construction of these City and developer funded roadway/signal improvements is necessary.

**Net New Classrooms**

The number of classrooms, by grade level and type of construction, that were added during the last fiscal year.

List the net new classrooms added in the 2006-07 fiscal year.					List the net new classrooms to be added in the 2007-08 fiscal year.			
"Classrooms" is defined as capacity carrying classrooms that are added to increase capacity to enable the district to meet the Class Size Amendment.					Totals for fiscal year 2007-08 should match totals in Section 15A.

## Planning

---

### **Class Size Reduction Planning**

**Plans approved by the school board that reduce the need for permanent student stations such as acceptable school capacity levels, redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multitrack scheduling, grade level organization, block scheduling, or other alternatives.**

The St. Lucie County School District has a choice plan that allows us to use all schools in an attendance zone to the maximum program potential. A typical attendance zone may have five to eight schools of a particular grade level to allow parents to choose from the school. The students are assigned based upon available capacity. This allows us to use all the capacity before constructing new schools. The District also has a magnet school program that allows us fully utilizes the capacity at the intercity schools.

### **School Closure Planning**

**Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.**

Fort Pierce Central High School is being replaced on a different site, and the new facility is scheduled to open in August 2008. Once the new facility is open and the students have moved, the existing campus will be closed. The property is scheduled to be retained for another use.

**Twenty-Year Infrastructure Planning**

**Proposed Location of Planned New, Remodeled, or New Additions to Facilities in 11 thru 20 out years (Section 28).**

In years 10-20 growth in western Port St. Lucie is expected to continue growth at a rapid rate. Eastern Port St. Lucie and northern St. Lucie County will see more growth than in the previous years. The SW Port Lucie developments of Regional Impacts (DRI) will continue to add growth and get close to build out. Proposed Northern St. Lucie County DRI's are anticipated to be underway with infrastructure and home sales. This will start to increase the growth rates in northern part of the county.

Two new high, two elementary and eight K-8 schools are planned to meet the student growth needs. Other ancillary facilities will be needed to support student growth.

Current plans are the following locations:

- 1 High School – Western St. Lucie
- 1 High School – TBD
- 6 K-8 in western Port St. Lucie.
- 1 K-8 in northern St. Lucie County
- 1 K-8 in eastern SW Port St. Lucie.
- 2 Elementary - TBD.
- Bus/Maintenance Compound- TBD.
- Support Facility TBD.

**Plans for closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues in the 11 thru 20 out years (Section 29).**
