#### Qualifications for Specialized Instructional Personnel

- To meet the personnel qualification requirements of 20U.S.C.1412(a)(14)(AE), as amended by the Every Student Succeeds Act (ESSA), all K-12 ESEcertified teachers teaching ESE courses in the core academic subjects as described in Section 4 of the CCD must have the content knowledge and skills to serve students with disabilities.
- Therefore, these teachers must meet certification requirements in accordance with the Grades K to 12 general education course number and the teacher must meet certification requirements for any ESE area (unless the exceptions for ESE in the CCD apply).
