

Florida School District 2020-21 Transportation Profiles

Volume 30, March 2022

This publication provides information about student transportation in each of Florida's 67 school districts. The data reflects the complexity and variety of factors that result in differing costs for student transportation among districts.

Methodology

Percentage Enrollment Transported

Derived by dividing the average number of eligible students (from Surveys 2 and 3) reported as transported on the Automated Florida Education Finance Program (FEFP) Transportation Survey by the Student Membership reported to PK-12 Education Information Services, Florida Department of Education (FDOE).

Annual Operating Expenditures per Student

Derived from total transportation expenditures on the 2020-21 Annual Financial Report (AFR) from general and special revenue funds, excluding bus purchases. This calculation is divided by the total adjusted number of students transported according to the final transportation calculation for 2020-21.

Operating Cost per Mile

Derived from total transportation expenditures on the 2020-21 AFR, general and special revenue funds, not including bus purchases. This calculation is divided by the total annual miles reported by school districts on the District Transportation Profiles Worksheet for 2020-21.

2020-21 Transportation Profiles Questionnaire

1. What is the name and district number of the school district that is being reported?
2. How many bus maintenance facilities are in the school district?
3. How many fueling sites are in the school district?
4. Does the district have staggered school times to accommodate buses?
5. How many bus compounds are in the school district?
6. What percentage of the bus fleet is compounded?
7. How many bus stop locations are in the school district?
8. How many bus route miles were accumulated during the 2020-21 school year?
9. How many bus field and activity trip miles were accumulated during the 2020-21 fiscal year?
