**TO:** FCS Reports Coordinators  
**Via:** [Christian.Cosner@fldoe.org](mailto:Christian.Cosner@fldoe.org)  
**SUBJECT:** 2024 Nursing Education Trend data Reporting Template

---

Dear Reports Coordinators,

Section 1004.015(6)(a), Florida Statutes, requires the Florida Talent Development Council to coordinate, facilitate, and communicate statewide efforts to meet supply and demand needs for the state's health care workforce. To support the efforts, the bill requires the State Board of Education to collect trend data related to nursing education programs.

To that end, we request that all institutions complete the attached survey instrument by October 1, 2024, for each pre-licensure nursing program that was active in 2022-23.

Please forward this request to the appropriate staff for completion. This survey is seeking admissions-related data regarding the last two years of your nursing cohorts. The workbook includes one tab that requires institutional data entry. Two other informational tabs are provided.

Institutions should submit completed spreadsheets to [fcsresearch@fldoe.org](mailto:fcsresearch@fldoe.org) by October 1, 2024. Questions may be addressed to [fcsresearch@fldoe.org](mailto:fcsresearch@fldoe.org).

Thank you for your assistance.

Best Regards,  
-Christian...
