Subject: Sgt. Mike Butcher Resume

Dr. Burns,

It was very nice to chat with you this week. I appreciate the opportunity to apply for the law enforcement officer position with the Educational Practices Commission. I believe the diversity of my work and teaching experience would place me in a unique position to assist the Commission. Additionally, I worked in our Professional Responsibility Bureau (Internal Affairs) for five years and I am familiar with the law enforcement certification disciplinary review process at the State level. The purpose of the Education Practices Commission appears to mirror this same certification oversight process. I have attached my updated resume and look forward to speaking with you and the members of the Commission in the future.

Respectfully,

Sgt. Mike Butcher
