AUTHORITY FOR STATE BOARD ACTION

N/A

EXECUTIVE SUMMARY

Senior Chancellor Miller will provide information on the history of school improvement and support for Escambia County School District, including Warrington Middle School.

In May 2022, the State Board of Education approved a turnaround option plan for Warrington Middle School. As part of that plan, the Escambia County School District was to work with Charter Schools USA to transition Warrington Middle School from a district-run public school to a public charter school for the 2023-2024 school year. The charter consultancy agreement for the remainder of the 2022-2023 school year was executed December 8, 2022.

Dr. Timothy A. Smith, Superintendent of the Escambia County School District, and Paul H. Fetsko, chairman of the Escambia County School Board, will provide an update on the turnaround efforts at Warrington Middle School.
