Code	**Definition/Example**
A	The student is a client of Department of Children and Families (DCF), is placed in a residential facility operated by the agency, and receives educational services from the local school district or through a contract with the local school district.

Year: 2023-24

Data Element Number: **177900**

Data Element Name: **Time, Total School Week**

The total amount of time a student with a disability is scheduled to attend school each week. This should be reported in minutes per week. All scheduled time i.e., class time, recess, lunch, and time between classes must be included in the total.

Code	Definition/Example

Examples:

1. Student A's school day begins at 7:30 A.M. and ends at 2:30 P.M. and the student attends five days per week. The total amount of time in school is calculated based on seven hours per day, five days per week. This equates to 2100 minutes per week.

2. Student B's school day begins at 7:30 A.M. and lasts until 12:30 P.M. The student then leaves the school campus to go to an on-the-job training site (OJT) on Monday, Wednesday, and Thursday. The student works until 5:00 P.M. on those days. For the three days the student goes to OJT, the minutes would equate to 570 minutes per day x 3 days = 1,710 minutes. For the two days the student does not work, the minutes would equate to 300 minutes per day x 2 days = 600 minutes. Then, the total time in the school week for this student is 1,710 minutes + 600 minutes = 2,310 minutes.

NOTES: This data should be reported only for Survey 2. Districts should zero-fill this element for all other survey periods.

This field should be zero-filled for students who are reported as gifted only--primary exceptionality is L and other exceptionalities are all Z's.

For students with disabilities ages 3-5, Time, Total School Week must reflect all programs the child is attending including childcare, private kindergartens or preschools, home services, Head Start, and service provider locations, as well as public preschool classes and kindergarten.

Data Element Number: **187011**

Data Element Name: **WDIS Student Instructional Hours**

WDIS Student Instructional Hours is a whole number, expressed in hours, assuming no decimal places and right justified with leading zeros.

WDIS Student Instructional Hours may not be reported in the Workforce Development Information System (WDIS) for students enrolled in courses or programs for which the direct instructional costs have been fully funded by an external agency. Section 1011.80(5)(d), Florida Statutes:

"State funding and student fees for workforce education instruction shall be established as follows: For a public educational institution that has been fully funded by an external agency for direct instructional costs of any course or program, the FTE generated shall not be reported for state funding."

For Adult General Education (Cost Reporting Codes ranging from 401 – 409*):

WDIS Student Instructional Hours for adult general education students must be reported in accordance with the requirements in Rule 6A-10.0381, Florida Administrative Code. The text of the rule can be accessed at the following web link: https://www.flrules.org/.

A technical assistance paper and rule summary are posted here (See "Instructional Hours Reporting for Adult Education.'): http://www.fldoe.org/academics/career-adult-edu/career-adult-edu-technical-assistance-.stml

For Career Certificate and Applied Technology Diploma (Cost Reporting Codes ranging from 351 – 369*):
For career certificate and applied technology diploma students, the WDIS Instructional hours shall be defined as the number of scheduled course hours from a student's first day of enrollment in a course and to his/her last scheduled day of enrollment in the course. If the student's enrollment in a course crosses reporting surveys, the instructional hours shall be pro-rated across the survey.

WDIS Instructional hours may not exceed the contact hours for which a student has paid/deferred tuition or received a waiver for the payment of tuition; the only exception is for instructional hours of students who withdrew after the drop/add period. If a student withdraws from a course prior to the end of the reporting survey (but after a drop/add period), the instructional hours may still be reported through the end of the course for that survey. For cases in which a student transfers to a different section in the same course during the survey, the instructional hours for the first section must be reported based on the hours from the date of enrollment to the date of transfer.

Code	Definition/Example

Cost Reporting Codes ranging from 351 – 369*

0100	The student enrolls in a 150 hour course and is scheduled to attend 100 hours in the fall survey and 50 hours in the spring survey. The student remains in this course to the end of the second survey. For this student, WDIS instructional hours are 100 hours in the fall survey and 50 hours in the spring survey.
0150	The student enrolls in a 150 hour course and is scheduled to attend 150 hours within the survey. The student remains in this course to the end of the survey. For this student, WDIS instructional hours are 150.
0150	The student enrolls in a 150 hour course and is scheduled to attend 100 hours in the fall survey and 50 hours in the spring survey. The student remains in this course to the end of the second survey. For this student, WDIS instructional hours are 100 hours in the fall survey and 50 hours in the spring survey.

For Continuing Workforce Education and Apprenticeship (Cost Reporting Codes ranging from 341 – 349, 371 and 372*):
For each Continuing Workforce Education and apprenticeship student, the WDIS Student Instructional Hours shall be defined as the number of scheduled hours from that student's first day of enrollment in that program and course through the last scheduled day for that program and course in the survey regardless of attendance.

Data Element Number: **187011**

Data Element Name: **WDIS Student Instructional Hours**

The following Continuing Workforce Education and apprenticeship examples apply in district XX where there are 18 weeks in a semester. The WDIS class in question is scheduled to meet for one hour twice each week for a WDIS Class Length of 36 scheduled hours.

Reporting Codes ranging from 341 – 349, 371 and 372*

0032   The student enrolls on the fifth class day of the course (missing the first four classes). WDIS Student Instructional Hours are calculated from the fifth day of class through the last scheduled class day in the survey. For this student, WDIS Student Instructional Hours are 32.

0036   The student enrolls on the first day of the course. WDIS Student Instructional Hours are calculated from the first class day of the course through the last scheduled class day in the survey. For this student, WDIS Student Instructional Hours are 36.

DOE INFORMATION DATABASE REQUIREMENTS VOLUME I:
AUTOMATED STUDENT INFORMATION SYSTEM
AUTOMATED STUDENT DATA ELEMENTS

Year: 2023-24

Data Element Number: **197260**

Data Element Name: **Postsecondary School of Enrollment**

Definition: The state assigned four-digit school number in which the student is officially enrolled in postsecondary instruction.

Postsecondary School of Enrollment will be used for reporting performance outcomes by school for legislatively required reports. Examples of situations where the school number for current instruction/service matches the Postsecondary School of Enrollment include when instruction is provided at a Council on Occupational Education (COE) accredited school, a non-COE accredited institution providing instruction in districts that do not have a COE accredited site, and an institution in which the local provider has determined should be a school of enrollment for reporting of performance outcomes.

School of Instruction should not match School of Enrollment in the following situations:
•Instruction is provided on an extension campus which falls under the accreditation of a Council on Occupational Education (COE) accredited site. In this situation the school of enrollment would be the accredited school, and the school of instruction would be the school where services were received.
•Instruction is provided at a separate school that has been approved as an alternate site under an accredited institution. In this situation the school of enrollment would be the accredited school, and the school of instruction would be the school where services were received.
•A student is dual enrolled and instruction is provided at the secondary school. In this situation, the school of enrollment would be the school that was providing the instructional services, not the physical location of the instruction.

0001-0899   District school sites assigned a unique number in the state Master School ID File.
