Office of Charter Schools

Re: Charter School Application Review – Request for Extension

Charter Legislation states §1002.33 (6) APPLICATION PROCESS AND REVIEW 3(a). that “A sponsor shall by a majority vote approve or deny an application no later than 90 calendar days after the application is received, unless the sponsor and the applicant mutually agree in writing to temporarily postpone the vote to a specific date, at which time the sponsor shall by a majority vote approve or deny the application.”

In order to perform a comprehensive review of your charter application, Polk County Public Schools respectfully requests an extension of the 90-day approval window. The recommendation to approve/deny the charter application will be presented at the **June 13, 2023** Board Work Session for information and at the **July 25, 2023** Board Meeting for action.

- The applicant **agrees** to extend the charter application approval window to provide Polk County Public Schools with additional time to perform a comprehensive review of the charter application.
- The applicant **does not agree** to extend the charter application approval window to provide Polk County Public Schools with additional time to perform a comprehensive review of the charter application.
