EXECUTIVE SUMMARY

The purpose of the proposed amendment is to modify Rule 6A-10.02413, F.A.C., so that it incorporates AMH X010 and the CLEP History of the United States I assessment as additional options for students to meet the course and assessment requirements for civic literacy competency. The amendment also adds a new degree type, an associate in arts specialized transfer (AAST) degree, based on language in House Bill 1285 from the 2024 legislative session. The civic literacy competency requirement applies to those seeking the AAST degree.
