SUBJECT: Florida College System – Florida Has A Right to Know

In accordance with changes made during last year's legislative session (see [Chapter 2019-103](#) Laws of Florida), the Florida Department of Management Services (DMS) is now required to post Florida College System employee payroll information, similar to that posted for state and university employees. Although other agencies report salary data more frequently, the Department was able to finalize a temporary process using salary data and categories currently reported annually by FCS institutions that has provided DMS with a dataset to satisfy the new statutory requirement. As of this week, the [Florida has a Right to Know](#) website has been updated with the data that the Division supplied from colleges.

We are currently coordinating with DMS and will work with institutions on a finalized process that will include updated data during the year.

In the meantime, please let my staff know if there are any questions regarding the current method of reporting.
