Subject: CareerSource Florida Memo Regarding Provisional Status on Master Credentials List

Dear Chancellors,

Senate Bill 240 was signed into law by Governor Ron DeSantis and took effect on July 1, 2023. The legislation requires the Florida Credentials Review Committee to establish a process for removing credentials from the [Master Credentials List](#) that no longer meet the [Framework of Quality](#). Credentials must be listed for at least one year after identification before removal. The attached memo provides notice that credentials granted provisional status on the 2023-2024 Master Credentials List will remain on the list as approved through the 2024-2025 school year.

Additional information including deadlines for applications for credentials to be considered for the Master Credentials List and/or eligible for Career and Professional Education (CAPE) secondary or post-secondary funding for the 2024-2025 year is included in the attached memo. The memo has been shared with Florida's local workforce development boards. Please share it with your distribution lists as appropriate.

Thank you,

Dan McGrew, CWDP

Sr. Vice President, Workforce Program Development
