## 2023-24 Charter School Authorizer Report

Published January 15, 2025 (for data reported by Florida charter school authorizers from the prior year)  
*Office of Independent Education and Parental Choice*  
*Florida Department of Education*

### Summary

This report satisfies the requirement in section 1002.33(5)(b)1.k.(III), Florida Statutes, which requires that charter school authorizers submit to the Florida Department of Education the information on the applications they received during the prior year (in this case, July 1, 2023 – August 1, 2024). The information herein contains the number of applications submitted to school districts throughout Florida during this time period, as well as the decisions on each application – whether they were approved, denied or withdrawn by the applicant.

However, the report has come to encompass much more than just information on charter school applications.

Over the last several years, the Florida Legislature has directed the Department to include two other components of the report:

- One of these components is a set of survey results from charter schools that have rated the timeliness and quality of services provided by their local school district.
- The other is a feature passed by the 2021 Legislature – an authorizer evaluation framework. Specifically, this framework must include, at a minimum, the following:
  - The authorizer’s strategic vision for charter school authorization;
  - The alignment of its policies and practices to best practices for charter school authorization;
  - The academic and financial performance of the charter schools overseen by the authorizer; and
  - The status of charter schools authorized by the sponsor, whether approved, operating or closed.

### Key Findings

***Number of applications approved remains higher than 50 percent.*** Local school districts received 45 applications from prospective charter schools in 2023-24, and of the 45 applications, 24 applications were approved. The 18 applications that were not approved were withdrawn from

### By the Numbers

**45** – Number of charter school applications districts received last year

**24** – Number of applications districts approved

**53 percent** – Approval rate of applications submitted

**18** – Number of applications withdrawn from consideration before a local school board could make a decision at a publicly noticed meeting

consideration before local school boards could make a decision at a publicly noticed meeting. There were 3 denials, one of which was appealed and overturned by the State Board of Education.

***Approval rates vary between districts:*** The 53 percent approval rate of charter applications statewide masks wide variation between district charter authorizers. Pasco County, for instance, received four applications in 2023-24, and approved all four of them, or 100 percent. By contrast, Hillsborough County approved just one, or 33 percent, of the three applications it received.

### **About this Report**

This report satisfies the requirements set forth in section 1002.33(5)(b)1.k.(III), Florida Statutes. This provision in the charter school law requires charter authorizers to report the number of applications they received the prior year and whether they approved or denied those applications, or whether any applicants withdrew. Further, the charter school law requires the Department to report the results of a survey it administered to charter schools. This survey asked schools to rate the timeliness and quality of services provided by their local school districts. Lastly, districts are required to report to the Department, by September 15 of each year, the total amount of funding withheld from charter schools in administrative fees. Those aggregate fees are featured on the final page of this report.

### Authorizer Evaluation Framework

## 2023-24 Florida Sponsor (Authorizer) Evaluation Framework

Pursuant to section (s.) 1002.33(5)(c), Florida Statutes (F.S.), a sponsor, or authorizer, must provide at a minimum:

- The sponsor’s strategic vision for charter school authorization and the sponsor’s progress toward that vision;
- The alignment of the sponsor’s policies and practices to best practices for charter school authorization;
- The academic and financial performance of all operating charter schools overseen by the sponsor; and
- The status of charter schools authorized by the sponsor, including approved, operating and closed schools.

The bulk of the framework here is the first two bullets, which the Florida Department of Education (FDOE) collected through a survey of district charter school sponsors. District charter sponsors were asked to explain their strategic vision for charter school authorization, and their progress toward meeting that. In addition, districts were asked if they could align their policies and practices to either the *Florida Principles and Standards for Quality Charter School Authorizing*, which the Department published in 2015, or other best practices. The following standards form the heart of that document:

- Standard 1 - Sponsor Commitment and Capacity
- Standard 2 - Application Process and Decision Making
- Standard 3 - Performance Contracting
- Standard 4 - Ongoing Oversight and Evaluation
- Standard 5 - Termination and Renewal Decision Making

# **Dade**

## **Sponsor Strategic Vision:**

- The district is committed to educational experience through quality charter school authorizing.
- The district reports it is 100% in progress with meeting its strategic vision.

## **Standard 1 - Sponsor Commitment and Capacity:**

- The School Board, District Administration and staff are guided by s. 1002.33, F.S., and M-DCPS School Board Policy 9800 when conducting its business. [Policy 9800, Charter Schools](#) transparently provides information about relevant laws and guidance on district policy, practices and process around charter school authorizing and oversight responsibilities.
- The Sponsor has a dedicated office, Charter School Compliance and Support (CSCS), and CSCS falls under the jurisdiction of the Office of Strategic Planning & Initiatives under the purview of the District's Chief Strategy Officer. CSCS is divided into four divisions:
  1. Accountability & Technical Support,
  2. Finance & Business Management,
  3. Facilities & Safety Support, and
  4. School Development & Portfolio Management.
- CSCS has created a culture of communication, collaboration and transparency with its charter schools through the following:
  - Weekly briefings used to relay new information and pertinent events, tasks and professional development.
  - Quarterly principals meetings in which the agenda is driven partly by an established Principal's Liaison Committee comprised of 14 charter school principals, a group representative of the district's charter school portfolio. Based on the generated agenda topics, CSCS facilitates presentations by district staff, outside stakeholders and governmental agencies /organizations. During these meetings, opportunities are provided for charter schools to share best practices and network in small groups.
  - Ongoing updates, as needed, will ensure that school leaders and governing board members are apprised of any information that directly impacts the school, staff, students and their families.
- The district supports the needs of its authorizing office and has devoted appropriate financial resources, through charter school administrative fees and other sources of district funding, to fulfill its responsibilities. This is clearly evidenced by human capital resources dedicated to the work conducted by CSCS and the support the department receives by other departments in the district. Additionally, the district has invested in an online compliance management tool that assists with oversight, compliance and monitoring responsibilities.

## **Standard 2 - Application Process and Decision Making:**

- Proposal Information, Questions and Guidance Charter: School Applications are required to be submitted using the Florida Department of Education Model Charter Application. The district follows the state law, rules and guidance as it relates to the charter school application process.

- As part of the application process, CSCS conducts a training for potential applicants that reviews all of the components needed for a successful application. Experts in the area of School Operations, Accountability and Assessment, Transportation, Title I, Academics, ESE, ELL and school governance present information to applicants and technical support is provided to applicants as needed. Additionally, the application packet, presentation slide decks and specific instructions can be found on the CSCS website so that any potential applicant may readily access the information. Applicants are provided with district staff contact information in case further information or follow up is needed.
- The district’s application review and evaluation process are fair, transparent and focused on quality procedures. As prescribed by Policy 9800, these are the basic steps for review of a charter application after CSCS staff reviews the application for completeness and technical errors:
  - Step 1 - Technical Review,
  - Step 2 – Application Review Committee (ARC), and
  - Step 3 – School Board Recommendation.
- The ARC is comprised of a non-district employee member of the School Board’s Representation and Excellence Advisory Committee and the Superintendent’s cabinet members or appropriate designees from the following departments: School Operations, Assessment, Research and Data Analysis, Federal and State Compliance, Charter School Compliance and Support, Academics and Transformation, Facilities, Financial Operations, Human Capital, Exceptional Student Education, Bi-Lingual Education and Management and Compliance Audits (non-voting). Other members may be added based on the type of charter school or educational program (e.g., Alternative Education).
- The state’s model evaluation is used to make a determination to either approve or deny the application and a recommendation is provided to the School Board.
- In order to ensure consistent evaluation standards, protocols and practices during the review and evaluation process, individuals that perform the technical review and the members of the ARC participate in an annual training.
- The technical review is the initial step in evaluating the application and it is conducted by reviewers that have specific areas of expertise. The ARC is charged with identifying deficiencies in the written application, appendices, historical performance and/or other areas that require clarification to fully evaluate the quality of the application or the capacity of the applicant to properly implement the proposed plan. This is done by reviewing any strengths and/or weaknesses identified through the technical review. Though the ARC considers comments and recommendations that were identified through the technical review, it is important to note that the ARC’s review and evaluation is more comprehensive and may include information ascertained during the meeting/interview with the applicants.
- Based on the review of the ARC’s recommendation, the Superintendent then proffers action to the School Board for final consideration through an official School Board Agenda Item, inclusive of the charter application and official charter application evaluation. Final consideration of approval or denial is made by the School Board at regular school board meeting.

**Standard 3 - Performance Contracting:**

- Policy 9800, Charter School drive the work that is required in ensuring excellence in authorizing. Annually, the department negotiates contracts for new schools, renewals and

amendments. Transparency is valued since negotiations are held in the “sunshine” at publicly noticed meetings.

- As permitted by s. 1002.33(7), F.S., and pursuant to Policy 9800, approved charter school applicants are provided a copy of the state’s standard charter contract and a checklist containing prerequisites for commencement of charter contract negotiations. Charter contracts will be negotiated using the sponsor’s standard contract in accordance with state law and State Board of Education rule. The district annually develops a district standard contract that incorporates the state’s standard contract as the initial point of negotiations. Initial contracts shall be for a term of five (5) years unless a longer term is specifically required or allowed by law.
  - Charter Amendments: There shall be no modification of any contractual provision(s) of the standard charter contract language, unless mutually agreed by both parties in writing. All amendments must be negotiated in compliance with the contract negotiation process. Policy 9800 provides for timeline, requirements and processes based on the amendment type (e.g., grade level configuration, educational program design, new/added/relocated facility).
  - Renewal Contracts: As permitted by s. 1002.33(7), F.S., and pursuant to Policy 9800, Charter Schools, renewals have a two-part process.
  - Charter Negotiations: Staff for the Office of Charter School Compliance and Support (CSCS) commence initial negotiations of the terms and conditions of the contract with the approved charter school applicant and provide the negotiated contract to the Contract Review Committee (CRC) for review and consideration. The CRC is an advisory committee to the Superintendent of Schools that complies with s. 286.011, F.S., and Chapter 112, F.S. During the publicly noticed meeting, attended by charter school representatives, the CRC can ask questions or proffer additional terms. The CRC members are comprised of the Superintendent’s cabinet members or appropriate designees, pursuant to Policy 9800.
- As permitted by s. 1002.33(7), F.S., and pursuant to Policy 9800 the term of the contracts are five years or longer with periodic high stakes reviews at least every five years. High Performing schools are provided the flexibility to amend their charter contracts under s. 1002.333, F.S. Amendments are required for any material change to existing charter contracts and a process is clearly delineated in Policy 9800.
- Provisions for Education Service or Management Contract (if applicable). The charter school’s governing board shall be solely responsible for the operation of the charter school which includes, but is not limited to, school operational policies; academic accountability; and financial accountability. Therefore, external, third-party providers of education services or management are not a party to the charter contract. However, during the application process, draft or executed contracts between the schools and proposed management companies/service providers are evaluated to assess roles and responsibilities, independence, conflicts of interests, compensation, performance measures and termination provisions. Pursuant to Policy 9800, proposed amendments to the contract between the school and the management company must be submitted to the sponsor for review prior to execution. Material changes to the original mission of the school’s scope of services, or in the management company, may require a contract amendment. Through this process [the district] ensures that there is an arm’s length relationship between the school and its management company.

- During the first phase, the charter schools that are up for renewal undergo a program review. A team visits the school and evaluates the programs and ensures that the mission-specific programs identified in the approved application are in place. Data points are reviewed at an Application Review Committee (ARC) where the first phase of the process is completed.
  - Charter Execution: New charter contracts, any charter contract amendments and renewal contracts, if approved by the CRC and recommended by the Superintendent, are presented to the sponsor for final consideration and execution. Execution of the charter contract begins once the contract has been approved by the Board.
- The CSCS has established a process that evaluates the performance of a charter school in the areas of academics, operations, governance and finance over the term of a contract. Understanding that utilizing a performance framework is a national charter authorizing best practice, CSCS is working with the Principals Liaison Committee to gather regular input in developing metrics and researching national best practices in this area. The department is committed to developing a performance-based framework that includes state accountability metrics as well as mission-specific goals.

#### **Standard 4 - Ongoing Oversight and Evaluation:**

- The district utilizes an online compliance management system which assists with monitoring compliance for every charter school. This system allows for the submission of required documentation and records as required by Florida Statutes, board policy and the charter contract in one centralized online location. It is utilized by all charter schools and monitored by CSCS staff.
- Intervention Compliance Management decisions made by CSCS are aligned to pertinent state statutes, and the school's charter contract. The district ensures that charter school policies are aligned with federal and state statute.
- Regular training is provided to all users on navigating the system. Charter School Annual Reports are developed by CSCS and published on its website each Fall. These reports provide a standardized snapshot of each individual charter school in the areas of school accountability, demographics, governance, operational compliance and financial performance. This public report includes a three-year trend of school grades, academic performance, operational compliance scores and financial expenditures, revenues and fund balance. This is done in order to ensure that all stakeholders are able to access this information.
- Through webinars and meetings, general technical support and information is provided to all charter schools. Additionally, charter school principals and management companies may contact CSCS staff to obtain guidance or technical support, on a limited basis.
- District staff provides annual training and provide support to the charter school ELL compliance. Coordinators in the areas of instruction, curriculum and records compliance provides support to charter schools in the district. Almost all the charter schools in the portfolio have adopted the District's Code of Student Conduct. To ensure proper implementation of the Code, annually, CSCS facilitates training on the Code, School Environmental Safety Incident Reporting (SESIR) and other requirements of the Marjory Stoneman Douglas High School Public Safety Act. Additionally, CSCS reviews each school's parent/student handbook, parent contract and admission application for compliance.
- The goal is to ensure that schools implement quality programs for all their students. Information and expectations are provided through charter contracts, training sessions,

professional development, quarterly principal meetings, weekly briefings and ongoing communication with impacted schools.

- Public reporting annually, through various reports, stakeholders are provided with information regarding charter schools. Some of these reports are generated by the state and others by the district. Those reports generated by the district are transmitted to the School Board and are available to the public. MDCPS is unique in that many of the meetings that are held regarding application reviews, contract negotiations and the renewal process are conducted in the sunshine. These meetings are publicly noticed, and anyone is able to attend.
- The best interest of students is paramount. CSCS staff monitors enrollment policies and procedures. The district has assigned a team of staff from the Department of Special Education to support charter schools. The roles and responsibilities of the district and charter schools, relevant to exceptional education students (students with disabilities (SWD) and gifted students), is clearly articulated in the charter contract.

#### **Standard 5 - Termination and Renewal Decision Making:**

- If a charter is terminated, the district follows the requirements and process set forth in the law based on the type of termination, 90-day termination or Immediate Termination.
- Pursuant to Policy 9800, the district utilizes a transparent and fair process to terminate the charter contract. Only School Board approval of a board item detailing the causes and justification for termination constitutes official termination action by the sponsor. If approved, formal and official notification of termination is provided to the school's Governing Board in the manner required by the law. Included in the Termination Notice is the school's appeal rights and information regarding the closure process. The sponsor works diligently to work with struggling schools, specifically with those schools that underperform or do not align their practice with state and federal laws.
- Renewal/Non-Renewal Decisions Based on Merit and Inclusive Evidence Pursuant to Policy 9800, any charter school seeking renewal shall be required to complete a charter renewal packet and undergo the renewal process. Pursuant to Policy 9800, any charter school seeking renewal shall be required to complete a charter renewal application package and undergo the renewal process which is inclusive of presentation of a summary of the school's performance record over the term of the charter to the district's ARC. If the ARC recommends renewal, the matter is forwarded to the Contract Review Committee (CRC) for negotiation of the terms of the renewed contract. Renewals may be approved for a term of up to five (5) years unless a longer term is mutually agreed upon, required or allowed by law. Upon approval by the CRC, the charter contract is forwarded to the School Board for final consideration and execution.
- In the event of a closure, CSCS follows its closure protocol. At the conclusion of the activities and submission of all documentation/information, the district conducts an exit interview with the school's governing board or authorized designee. Both parties review and sign the final Close Out report.
- The district provides written notification to the school's Governing Board and school leadership clearly detailing the cause(s) for termination and advisement of recommendation that will be made to the School Board for consideration. The notice also includes the dates of public hearings before the School Board, instructions on requesting to speak before the School Board and the school's appeals rights if the School Board takes action to terminate.

- In advance of the renewal decision, the district provides training/orientation to the Governing Board Chair and school leader on the renewal process, inclusive of documentation requirements, timelines and renewal evaluation process.
- Pursuant to Policy 9800, prior to renewal of a charter, the sponsor performs a program review, inclusive of a site visit and interviews. The district's ARC is a committee that is part of the renewal process. During this public meeting, the school is provided an opportunity to respond to the district's findings, correct the record and/or present additional information about its past performance. Additionally, the school is provided an opportunity to showcase their school and all it has to offer to their student population. At the conclusion of the ARC meeting, the ARC makes a recommendation regarding renewal.
- Annually, the performance and compliance are tracked through its annual report, which is included in the Program Review. The Program Review for renewal includes an analysis of governance, operational, financial, enrollment and school performance data for the term of the expiring contract. A report is prepared that reviews standards and indicators that guide the review process. This report is presented at the ARC.

## **Hillsborough**

### **Sponsor Strategic Vision:**

- The Hillsborough County Public School (HCPS) Vision of “Preparing Students for Life” includes a set of priorities.
- The following priorities encompass the HCPS Charter Office’s role within the district: Engage stakeholder collaboration; Equitable access to quality and innovative instructional programs; Ensure transparency through internal and external communication; and Prioritize a commitment to excellence in education and authorizing practices.
- The mission of the HCPS Charter Office is to ensure charter schools in the HCPS portfolio serve students equitably and effectively through intentional authorization and oversight practices and meaningful collaboration among all stakeholders.
- The vision of the HCPS Charter Office is to foster high quality public education options for the students, families and communities of Hillsborough County.

### **Standard 1 - Sponsor Commitment and Capacity:**

- HCPS supports and advances the purposes of charter school law. We actively follow proposed senate and house bills that might affect authorizers and charter operators, and brainstorm with appropriate staff in order to plan accordingly for possible changes in law.
- The HCPS Charter Office staff engages in conversations about best practices with Florida Association of Charter School Authorizers (FACSA) on a monthly basis to ensure our existing processes and procedures are effective and aligned to the current statute. Charter Office staff collaborate fluidly with district cabinet members to ensure authorizing is visible, championed, and adequately resourced.
- All HCPS administrators and instructional and non-instructional staff involved in charter school authorizing are experts in their field, including educational leadership, curriculum, assessment, ELL and ESE. HCPS ensures all departments involved in charter authorizing are adequately staffed and funded.
- The HCPS Charter Office staff as well as district departments communicate with school leaders and appropriate personnel daily as needed to support and advise on required activities. Communication is provided via phone and email, through access to Teams resource files on Microsoft Office, through in-person and virtual meetings and training, as well as through a monthly newsletter to charter school principals.

### **Standard 2 - Application Process and Decision Making:**

- HCPS publishes a charter application information packet on the district’s website providing clear guidance and requirements regarding application content and format, while explaining evaluation criteria. Additionally, technical assistance via email or phone by a designated Charter Office staff member is readily available.
- HCPS’s application process provides applicants with submission instructions, implements an application receipt process and provides applicants with a realistic timeline of events upon their submission of the application.
- The Charter Office communicates processes and approval criteria clearly through information provided in the information packet, on the website, through phone calls and emails with

potential applicants, at the time of application submission and at the capacity interview, as well as upon notifying the applicant of the superintendent's recommendation. Applicants are informed of the reviewers' recommendations to the superintendent before the approval/denial item is brought before the HCSP. Applicants with denied applications are provided with the reviewers' recommendations so that if they wish to revise their plans, they may resubmit in the future.

- HCPS's approval criteria and processes include reports and rubrics aligned to the different scenarios (high-performing replication, virtual, Educational Support Personnel (ESP), etc.). This ensures the reviewers from the many departments of the district have clear expectations and pertinent information to provide a rigorous but fair review, resulting in granting charters to applicants that have demonstrated competence and capacity to succeed in all aspects of the school.
- The Charter Office provides annual training to existing and new reviewers, both internal and external. Selection of reviewers is based on field of expertise and focus of the charter application. A capacity interview is held and pointed questions are asked based on the reviewers' clarifying comments.

### **Standard 3 - Performance Contracting:**

- HCPS uses FDOE's standard contract. Upon approval of the application, contract negotiations for a five-year contract or longer as appropriate are initiated in collaboration with HCPS's legal counsel. When both parties have come to an agreement on the terms, the contract is brought before the HCPS School Board for approval. All drafts of ESP contracts with the applicant are carefully reviewed and when necessary, discussed with the board chair and/or designee of the school. The objective is to ensure that the third-party contract is consistent with applicable law and in the public interest.

### **Standard 4 - Ongoing Oversight and Evaluation:**

- HCPS has a comprehensive performance accountability and compliance monitoring system that includes the following: ESE specialists, school social workers, school psychologists, ELL resource teachers and nurses. They visit charter schools daily, ensuring that all federal and state laws are followed and to provide guidance to charter school personnel to ensure that they operate within the framework of those laws.
- When deficiencies are found, the school is placed on a corrective action plan that might include compensatory services.
- New schools receive guidance and training on district specific practices and systems through new operator training held with Charter Office and district staff.
- A new school facility development protocol aligned to contract and statutory deliverables for facility opening as well as a pre-opening site visit protocol aligned to contract and statutory requirements are conducted to ensure new schools are ready for students and operations.
- A yearly comprehensive site visit protocol that includes all aspects of operations as aligned to contract and statutory requirements.
- Maintenance of *Charters.Link*, a compliance portal providing the schools with due dates and upload capabilities for pertinent documents required in the contract and statute. Requests for district-specific information are kept to a minimum and, if requested, clear and transparent rationale is provided. These include: monthly and quarterly financial reviews; annual financial

audits; letters to governing board members communicating timely notice of contract violations or performance deficiencies; and daily technical guidance via phone and email -as needed - to ensure timely compliance with applicable rules and regulations: Schools falling into statutory academic corrective action under s. 1002.33(9)(n), F.S., are given guidance and support through the school improvement plan development and board presentation process, and receive quarterly site visits to monitor school improvement plan and associated progress monitoring data.

- A comprehensive and transparent contract renewal review process is implemented as described in section 9, as related to Standard 5. Post-Contract renewal protocol to ensure non-statutory deficiencies found during renewal are cured. Each summer, the Charter Office staff revisits protocols and procedures to determine if there is a more effective way to collect information from the school in a manner that minimizes administrative burdens on the school. We also listen to stakeholders' proposals and suggestions and take those into consideration. By contract, schools must go through the district's change of placement/environment protocol if recommending placement for students with SESIR-related discipline incidents or students with continuous disruptive behavior.
- Charter Office produces an annual public report that provides accurate academic and financial performance data of the schools. This is brought before the HCPS school board as an informational item and then published on the district's website.

#### **Standard 5 - Termination and Renewal Decision Making:**

- The HCPS Charter Renewal Process includes a thorough analysis of the evidence obtained by a review team composed of several department experts. They are trained each year to ensure their evaluation of the criteria is fair and based on a rubric. The renewal rubric is shared with the renewing schools to ensure transparency, accountability, and to set expectations. The Superintendent brings before the board recommendations based on the comprehensive review and Florida charter statute.
- The Charter Office provides the renewing school with advance notice of the renewal decision, to include a cumulative performance report. The summative findings are shared with the HCPS board members with the Superintendent's recommendation.
- HCPS has closed six charter schools within the past five years. Five of the six closures were voluntary. All closures were conducted in collaboration with the school's board members. A detailed closure protocol was provided to the school detailing all the necessary steps and timeline. Students and families were provided with options and disposition of school funds, property and assets were done according to law.

## **Indian River**

### **Sponsor Strategic Vision:**

- The School District of Indian River County (SDIRC) strategic vision for charter school authorization is to implement the Florida Principles & Standards for Quality Charter School Authorizing with fidelity.
- SDIRC is under a federal desegregation order for all our district schools to close the achievement gap for African American students; therefore, while we hold our charter schools to high standards in all areas, we maintain a specific focus on Principle III regarding students.

“Hold schools accountable for fulfilling fundamental public education obligations to all students which includes providing: Nonselective, non-discriminatory access to all eligible students, Fair treatment in admissions and disciplinary actions for all students, and Appropriate services for all students including those with disabilities and English language learners, in accordance with applicable law.”

- The district reports it is 85% in progress with meeting its strategic vision.

### **Standard 1 - Sponsor Commitment and Capacity:**

- The SDIRC governing board ensures that staff holds to the three core principles of authorizing (maintaining high standards, upholding school autonomy and protecting student and public interests). The district has a designated charter school liaison to assist charter schools with district policies and practices, annual reporting and communication and collaboration between our charter schools and the district office personnel.
- SDIRC currently has five charter schools. Due to the current charter school capacity, we employ one charter liaison with support from district leadership. Curriculum, safety, assessment, accountability and finance work with the liaison to support the charter schools. The Chief Financial Officer for SDIRC and his finance team meet as needed with the charter school leadership to ensure that financial resources are appropriated in line with state statutes. When grants or additional funding are available to the district, the opportunity to participate is made available to the charter schools in our district and the appropriate financial information is shared with them for their applications and reports.
- SDIRC has updated our current charter school district policy to include the language of the Spring 2021 Legislative updates. In addition to our district policy, we have set timelines based on state legislation for charter application review and contract negotiation that has been reviewed and approved by our legal team to ensure we are compliant and properly reviewing all applicants. This will ensure only high-quality charter schools are opened in Indian River County.

### **Standard 2 - Application Process and Decision Making:**

- SDIRC follows all state timelines for charter school applications. We use the Florida model applications when working with an applicant school. In addition to our district policy, we have set timelines based on state legislation for charter application review that has been reviewed and approved by our legal team to ensure we are compliant and properly reviewing all applicants to ensure only high-quality charter schools are opened in Indian River County.
- Applicants are held to high standards based on the Florida Model Application, SDIRC policies and Florida Statutes.
- The SDIRC Charter School Services webpage includes links to the state page for current information on charter applications. We implement those processes with fidelity. When an application is received, the Charter Liaison works with the applicant every step of the way to ensure a smooth process. The Charter Liaison holds a training with the applicant review committee before the process begins to ensure that all involved are familiar with the application, the process and sunshine laws. The committee members submit questions to the Charter Liaison to review before the application review committee interviews the applicant to ensure we receive all the necessary data to make an informed decision on the quality of the charter applicant.
- The Charter Liaison holds a training with the district applicant review committee before the process begins to ensure that all involved are familiar with the application, the process and the

sunshine laws. The committee members submit questions to the charter liaison to review before the application review committee interviews the applicant to ensure that we receive all the necessary data to make an informed decision on the quality of the charter applicant.

- The Charter Liaison is a member of the Florida Association of Charter School Authorizers (FACSA). FASCA provides training, mentoring and assistance. With these resources, SDIRC can ensure the review process is rigorous and that charter schools that are approved will bring high quality education to SDIRC. Each applicant is reviewed based on the Florida Principles and Standards to ensure unbiased decision making.

### **Standard 3 - Performance Contracting:**

- SDIRC follows all state timelines for charter school contract negotiations. We use the model contracts when working with an applicant school. In addition to our district policy, we have set timelines based on state legislation for charter contract negotiation that has been reviewed and approved by our legal team to ensure only high-quality charter schools are opened in Indian River County.
- Charter school contracts with SDIRC allow for charter school autonomy while holding schools to established criteria for curriculum and charter school regulation per Florida state statute. The Charter Liaison makes site visits to the district charter schools a minimum of twice a year to ensure that the schools are implementing their contract with fidelity for high quality education of our district students.
- Each charter contract defines the sources of academic data, financial data and organizational data that will be reviewed as a part of the annual evaluation for each school. These are amended as needed per the charter school governing board.

### **Standard 4 - Ongoing Oversight and Evaluation:**

- The Charter Liaison works with each school to ensure that they submit their necessary data for annual monitoring. The Charter Liaison monitors the data and annual reports for each charter school for contract compliance.
- All SDIRC charter schools are currently on a 15-year renewed contract. The finance department conducts the financial reviews and reports to the Charter Liaison before the approval of the charter school annual report. The Charter Liaison makes additional visits to any charter schools that need assistance with compliance or report submission.
- The sponsor respects the autonomy of each charter school in its day-to-day operations. The sponsor collects the required data for Florida state reporting and for our local Desegregation Order. The charter schools have the autonomy to provide the data needed for the desegregation order that they choose with the knowledge it will be shared with the public and the courts.
- SDIRC is under a federal desegregation order that requires all schools to be within a certain percentage for both African American student enrollment and African American instructional hires. It further requires that each school in the district work toward closing the achievement gap for students and lowering the risk ratio for African American students regarding discipline data. All our charter schools have amended their enrollment and lottery policy to include African American applicants to be admitted first per the federal desegregation order.
  - Four of our charter schools are now within the percentage range for student enrollment.

- The fifth charter school is over the percentage allowed by the desegregation order.
- Three of our charter schools offer transportation to reduce barriers for disproportionate populations.
- The ESE department supports all our charters with their ESE evaluations. The school district shares our code of conduct and student referral system with any charter schools that wish to follow a similar program.
- The Charter Liaison visits each charter school a minimum of twice yearly and provides yearlong support to assist them with achieving the federal desegregation order required percentages.

**Standard 5 - Termination and Renewal Decision Making:**

- SDIRC has not had to terminate a contract. That decision would only be made within the confines of the state legislation and after review by our legal team. All renewal contracts in SDIRC were offered within the confines of the Florida defined renewal process for high quality charter schools.
- All charter school communication is clear and timely with respect to renewal and termination decisions under the direction of our legal team.
- SDIRC has not had to close any charter schools. If this were to occur, we would follow all Florida state legislated procedures under the direction of our legal team.

**Other Standards and/or Benchmarks outside of Florida Principles and Standards**

- SDIRC uses the Florida Principles and Standards for Quality Charter School Authorizing. Our Charter School Liaison is a member of the Florida Charter School Authorizers and participates in the continuous professional development of charter school authorizing best practices.

**Lake**

This also speaks to the collaborative relationship between the sponsor and authorizers.
- The district reports it is 100% in progress with meeting its strategic vision.

**Standard 1 - Sponsor Commitment and Capacity:**

## **Standard 2 - Application Process and Decision Making:**

- As outlined in School Board (SB) Policy 9800, the sponsor specifies procedures, processes and practices that support the application process and decision making protocols. An example of one of these practices includes an annual “New Applicant Orientation” to support applicants with an opportunity to learn more about Lake’s process. At the onset of the renewal process, Charter Office staff meet with each school’s administration and governing board member(s) no later than mid-September for those schools whose contract will be expiring June 30 of the current school year.
- The purpose of both the new applicant and renewal meetings is so that stakeholders have a clear understanding of the process and the opportunity to address questions or provide support. It is also an attempt to provide all stakeholders with clear evidence that the processes are fair, transparent and quality-focused and that the sponsor expectations include both rigorous approval criteria and incorporate a rigorous decision-making process.

## **Standard 3 - Performance Contracting:**

- As a sponsor for charters, District staff works closely with charter schools to ensure that state statutes and federal requirements are followed, as well as individual contracts are in compliance with what is outline in SB Policy 9800. Furthermore, the sponsor utilizes FDOE’s model applications and contracts and that all modifications are mutually agreed upon by both parties.

## **Standard 4 - Ongoing Oversight and Evaluation:**

- Currently, Lake County is the only charter sponsor in the district. On an annual basis, district staff complete a monitoring cycle with the primary focus on education, organization and governance performance. During the review, goals identified in the contract or through another mechanism such as School Improvement Plans, are discussed. While charter schools are afforded autonomy through statute or charter contracts, there are statutory requirements that all public schools must comply with.
- Quarterly, a Charter Principals’ meeting is held for the purpose of disseminating important information and to discuss other concerns or to answer questions of charter principals.
- The Charter Office has finalized an annual public report and will publish this school year.

## **Standard 5 - Termination and Renewal Decision Making:**

- SB Policy 9800 outlines the process for the termination and renewal decision making based on s. 1002.33, F.S. Continuous monitoring of the contract is conducted by district staff if areas of concern are identified, and school and district staff will work toward rectifying the identified areas. Each school whose charter contract will expire June 30 of the following year is provided no later than mid-September a renewal packet tailored to their school level or type of school.
- The renewal packet includes the application guidelines; location of data, including the school under consideration and comparable schools within proximity; the evaluation instrument; resources to support the application process; and the FDOE charter renewal contract.

All school district experts are oriented to the model evaluation tool and strictly adhere to that instrument to ensure objectivity and complete fairness in evaluation of standards, practices, and protocols for each application; to ensure that the entire process of application review and final decision for approval of the charter is devoid of either real or perceived conflict.

#### **Standard 5 - Termination and Renewal Decision Making**

- The district will terminate a charter for good cause when clear evidence of significant underperformance or violation of law exists.
- All renewal and termination decisions are based on an analysis of a comprehensive body of evidence that is defined specifically in the charter contract and reviewed by experts in their respective fields. If an entity has achieved the standards and targets specified in the contract, and the organization is fiscally viable and faithful to the terms of the contract and applicable law, the contract will be renewed.

District department directors presented to the charter schools and also allowed them to ask questions.
- The LCSB Human Resources and Fingerprint departments work closely with charter schools regarding certification and fingerprinting requirements and provide guidance as needed. Charter schools are provided access to Focus Parent Portal, the district’s SIS system, as well as *LeonLeads*, the district’s professional development tool. The district’s finance department works closely with the designated charter school finance representative to ensure funds are provided effectively and efficiently in accordance with state statutes. The district finance department also provides support regarding monthly/quarterly financial statements, program cost report, annual audit, grant documentation/questions, etc.
- The LCSB charter school liaison communicates with the charter schools daily by email and phone. The LCSB Charter school liaison attends monthly FACSA (Florida Association of Charter School Authorizers) meetings.

### **Standard 2 - Application Process and Decision Making:**

- The LCSB charter office has an up-to-date website that clearly states the charter application process and the requirements regarding application content and format with direct links to the state’s application and evaluation templates.
- Upon receiving an application, the district’s review committee, composed of the Superintendent’s Charter Application Review Committee, which includes district department directors and coordinators, is provided training by the LCSB charter office. This is to ensure consistent evaluation standards and practices are being implemented. After review of the application, the review committee generates areas needing clarity or questions. The district may also have an external evaluator participate in this process.
- Simultaneously, the LCSB charter office contacts the applicant to explain how each stage of the application process is conducted and evaluated. During the capacity interview, the applicant has an opportunity to answer and clarify the committee’s questions.
- Once the interview process is complete, the LCSB charter office holds a publicly notified meeting to communicate its evaluation results. These results are then submitted to the

Superintendent and the applicant is also informed of the outcome. The Superintendent then makes a recommendation to the School Board. The LCSB charter office uses The Model Florida Charter School Application and Evaluation Instrument to conduct the charter application review process.

### **Standard 3 - Performance Contracting:**

- The LCSB charter office uses the Florida Standard Contract. Upon approving the application, LCSB (in collaboration with legal counsel) grants initial charter contracts for a term of five years and ensures good faith negotiation of the charter contract. Charter schools submit amendments to the district for School Board approval, as needed. The LCSB charter office has a transparent renewal process that clearly defines timelines and expectations.

### **Standard 4 - Ongoing Oversight and Evaluation:**

- The LCSB charter office has systems in place to monitor and evaluate charter school compliance in the areas of academics, finance and operations. The LCSB charter office conducts annual monitoring visits to the charter schools. During this visit, an Annual Site Visit Monitoring form is reviewed and completed with the charter school administration. The school is provided with the monitoring form in advance of when the compliance visit takes place.
- The LCSB Technology department has provided all charter school employees with district issued Microsoft Outlook email accounts to ensure they have access to the professional development platform as well as pertinent information sent by the district. Charter school administrators also have access to the Teams SharePoint site containing all information shared at Principal and Assistant Principal meetings. Many district departments also provide access to their SharePoint sites.
- Charter principals and their designee are included in professional development opportunities regarding assessment and accountability. The LCSB Finance department receives monthly/quarterly financials from charters and asks questions accordingly. The LCSB ESE department provides support personnel to each charter school and provides guidance to charters as needed. The LCSB charter office produces an annual charter school report for the Superintendent and School Board members that includes school information, enrollment data, academic performance and financial performance. This report is then published on the district charter school webpage.

### **Standard 5 - Termination and Renewal Decision Making:**

- The LCSB Charter Renewal Process includes a thorough analysis of the renewal application conducted by the Renewal Review Committee. The committee is selected based on expertise in their field and are provided annual training by the charter office. The LCSB charter office use the state's standard renewal contract. The LCSB Renewal Committee conducts a site visit to the school, observes classrooms and asks questions to the charter renewal committee. LCSB grants renewal to schools that have achieved the standards and targets stated in the charter contract, are organizationally and fiscally viable and have been faithful to the terms of the contract and applicable law.
- The LCSB charter office provides the renewal recommendation to the Superintendent. The Superintendent then makes a recommendation to the School Board. In the event a charter school needs to close, the sponsor communicates with the school administration and governing board chair to determine how best to move forward, while following state statute

and contract language. The LCSB charter office communicates the charter school closure to district departments.

- LCSB holds a meeting for the Renewal Review Committee and the public to provide input on the final evaluation. Recommendation is communicated to the school at the public meeting.

## **Manatee**

### **Sponsor Strategic Vision:**

- The District Support Charter Schools Office (DS CSO) of the School District of Manatee County (SDMC) will set high expectations for charter schools that are student-focused and develop students to become lifelong learners who are globally competitive.
- The mission of the DS CSO is to support quality charter schools to ensure that every Manatee County child receives a high-quality education.
- Charter school success is our concern. The expectation is that every charter will provide high quality education options for Manatee County children. The goal of the DS CSO is to ensure that charter schools success translates to student success. This also contributes at the macro level to district success.
- The district reports it is 95% in progress with meeting its strategic vision.

### **Standard 1 - Sponsor Commitment and Capacity:**

- The DS CSO supports charter school law through the monitoring of charter schools, per provisions in Florida Statutes and charter contracts. Oversight of governance takes place in various ways: through data collection via *Charters.Link*; the quarterly review of Charter School Governing Board meeting minutes; meeting with Governing Board Chairs when requested or necessary; and through regular visits to Governing Board meetings. Through *Charters.Link*, policy and practice are streamlined for the effective and efficient gathering of data.
- Each summer the DS CSO reflects on the previous school year to evaluate practices, streamline services and improve department functions. The DS CSO works with various district departments, as appropriate and necessary, to review new charter applications, conduct charter school renewals and to develop and amend charter school contracts.
- Communication with charter schools is clear, open and timely. Through regular meetings, twice weekly email blasts, quarterly site visits, renewals and subsequent feedback, charter schools receive regular information geared to improving and striving to achieve best practices. The district also surveys charter schools on new initiatives and to gather feedback on how they perceive new initiatives such as *Charters.Link*, etc. The DS CSO responds to concerns and make changes as appropriate.

### **Standard 2 - Application Process and Decision Making:**

- Annually, the DS CSO updates application information on its website. An annual *Application Orientation* meeting occurs, where potential new charter school applicants learn about the district and the process for applying for a charter school in Manatee County. During the Annual Application Orientation, timelines and sponsor specific requirements are reviewed, along with the most recent FDOE Model Application, Evaluation Instrument, applicable

Florida Statutes, Florida Principles and Standards, district website information, capacity interviews and FDOE guidance and website documents.

- Experts from various departments around the district make up the Charter Application Review Team. This team is trained annually and chosen at the request of the Charter Schools Office by District department chairs or senior District Administration for excellence in specific areas. This team reads and reviews an application; notates their questions, concerns and comments on the FDOE Model Application Evaluation instrument; and meets over the course of application review for discussion and decision making.
- All charter school applications, once received, are reviewed by the DS CSO to ensure they are complete. When necessary, the opportunity to cure non-substantive errors or omissions is given to the applicant. The DS CSO convenes the Sponsor's Application Review Team to orient them to the task of evaluating the current application(s) received. Applications are reviewed against the criteria listed in the FDOE Evaluation Instrument, Florida Statutes, Principles and Standards for Quality School Authorizing and through a Capacity Interview. All applications are evaluated using the *most recent Florida Department of Education Charter Application Evaluation Instrument*. Due diligence is applied in every area reviewed. Experts from the Application Review Team are assigned to specific areas of the application to ensure there is clear evidence that the applicant's plan will be executed successfully.
- The Charter application evaluation team looks deeply into the written narrative to ensure quality, consistency and thoroughness in the narrative as to how the applicant will accomplish what is stated in the application, and the alignment of the narrative to established criteria by the FDOE. Due diligence is taken in every area of application review, the capacity interview, reviewing the history and competence of the charter operator and Education Service Provider.
- The School District of Manatee County will only enter a charter contract with applicants that demonstrate the capacity to successfully open and operate a charter school. Items considered include the written application, the capacity interview and the experience of the Governing Board, Education Service Provider (if applicable) and the school leader (if selected). The DS CSO ensures that the Application Review Team makes decisions based on sound data, free of conflicts of interest.

### **Standard 3 - Performance Contracting:**

- Contract Term, negotiation and Execution of the charter Contract begins with the Standard Contract (new applicants) or the Standard Renewal Contract (charter renewals) published by the Florida Department of Education in August 2024. Terms of five years are granted unless the charter is currently High Performing (15-year contract). New charter schools may also be granted additional years for pre-planning or building of a new charter school facility.
- Contracts are negotiated within the statutory time limits. Once all parties are in final agreement, the contract is approved by the District School Board. Rights and Responsibilities contract language is clear, precise and in alignment aligned with Florida Statutes. Contract language may include performance standards, or specific criteria/conditions, and delineates authority and responsibilities of each party in the agreement. Any special conditions or considerations are mutually agreed upon by both parties.
- The charter establishes measures of student achievement, services for students, adherence to state-mandated assessments, fiscal management and duties, renewal evaluations and other measures by which the charter will be reviewed and examined to determine the school's success in fulfilling its mission and serving its student population.

- Provisions for Education Service or Management Contract are also examined. Each charter that enters into an agreement with an Education Service Provider (ESP), provides a copy of the current management contract to the DS CSO for review. The review ensures that the Management Agreement defines the scope of services, clearly delineates roles and maintains appropriate boundaries regarding the functioning of the school and Governing Board. The financial terms of the contract must be fully disclosed, including as criteria for contract termination and responsibilities in the event of school closures

#### **Standard 4 - Ongoing Oversight and Evaluation:**

- Performance Evaluation and Compliance Monitoring is included in all Charter contracts: all pertinent information to inform renewals, terminations and interventions that may be needed. Both contracts and compliance monitoring are aligned with all federal, state and local statutory requirements. The School District of Manatee County utilizes *Charters.Link* as an electronic warehouse to store all compliance monitoring requirements.
- Each compliance monitoring submission item required is built out based on Florida Statutes, Rules or FDOE Model contract requirements.
  - Annually, charter schools receive all General Compliance Monitoring requirements and due dates.
  - Technical assistance is provided to all charter schools regarding the use of *Charters.Link*, and the reporting of information.
  - Each charter is visited quarterly, but in the event of cancellation or scheduling conflicts, no less than twice per year.
- The DS CSO meets with all charter administrators no less than seven times per year. Meeting dates are published to the charters over the summer and placed on the District K-12 Meeting Calendar. Charter Administration meetings cover a variety of topics of relevance to charter schools. This year, charter administrator meetings have covered:
  - Legislative changes, Electronic Student Records, Controlled Open Enrollment, School Safety and Security, Federal Program Updates, Technology updates, Mental Health, Parent Rights, Student Code of Conduct updates, Reunification Plans, Transportation census and training updates, ESOL updates – including Elevation, Student Progression Plan updates, Grants Updates, Student Health updates, MTSS processes updates, FDLRS, Threat Management Teams, Online Safety, new requirements for Reading and Math deficiencies, Comprehensive System of Reading Instruction, Required parent notification, ESE changes, HR Certification Requirements, Financial Changes to Capital Outlay, Categorical School Funds, Teacher Salary Increase Allocations, ACT Updates, Testing/Assessment Updates, Interscholastic Athletics, Technical Assistance on Promotion to Grade 4, Best Practices for Charter Principals and more.
- The DS CSO works closely with the School District of Manatee County General Counsel with regard to any breeches in contract or performance deficiencies from monitoring, and compliance or charter reporting. Charter schools receive an email and telephone reminder or warning prior to formal notices of contract violations or performance deficiencies.
- Charter schools are monitored on meeting standards and targets as stated in their contract. Charter schools receive clear and concise feedback and information on a regular basis.
- Charter schools are monitored for their enrollment processes. A school district specialist is assigned to the oversight of compliance in the following areas: Exceptional Student

Education, 504s, English Language Learners and student discipline. All applicable federal and state laws are considered during ongoing work with charter schools and in the charter renewal process. Charter schools are given clear and evidence-based notification of any deficiencies in meeting monitoring requirements, contract performance requirements or other violations of contract or law.

- Charter Annual Reports are provided to each charter school operating in Manatee County. These one-page reports cover three successive years of summative data regarding school performance in academics, financial and compliance monitoring. Other charter specific information is also available on the reports.
- Intervention strategies such as information sharing, emailing or face-to-face meetings are utilized, recognizing charter autonomy and responsibility while simultaneously addressing issues.

### **Standard 5 - Termination and Renewal Decision Making:**

- Charter schools receiving two consecutive grades of F in the Florida Accountability System are terminated. Prior to termination, the DS CSO works with the charter school to ensure the implementation of a School Improvement Plan (SIP). Regular quarterly visits to the charter include conversations about progress on annual academic achievement goals, any concerns the principal may have, building and classroom walk throughs, a review of F.A.S.T. benchmark and other student data. Discussions are conducted based on best practices in education with Charter Administration and the Governing Board, as appropriate. Charter renewal decisions are made in conjunction with the review of an abundance of evidence in a wide variety of areas. This information is standardized and updated annually based on charter school contracts, changes in legislation and best practices. Renewals are conducted by the DS CSO, in cooperation with expertise from various district departments.
- The District Charter Renewal Team reviews the updated charter renewal application; compliance and monitoring reports from *Charters.Link*, all data required and provided by the charter school during site visits; classroom walk through findings; and information gleaned from interviews with charter school personnel, governing board members, students and parents. A full report of charter compliance along with a summary table of charter renewal findings, an executive summary, leading and summative data points are all included in the Charter Renewal Team recommendation. This data packet is delivered to the Superintendent. The Superintendent then makes a recommendation to the School Board to renew and recommend a 90-day notice prior to the end of the current contract. Once the School Board votes to renew or non-renew, the District and charter enter into contract negotiations or prepare for the charter to close.
- The School District of Manatee County has had the good fortune of very few charter school closures. Prior to closure, the school district does intervene with open and transparent conversations about the condition of the school and what the charter will do in the event a closure is imminent. A detailed closure protocol, aligned with Florida Statutes, is in place in the event of a closure. All communication and notification to parents, the transition of students and their school records is clear, timely and orderly. The school assets, including financial and property, are handled in accordance with Florida Statutes.

### **Other Standards and/or Benchmarks outside of Florida Principles and Standards**

- Beyond the Florida Principles and Standards for Quality Authorizing, the School District of Manatee County participates in state and national Authorizing organizations to bring best

practices to charter schools served in the district. Manatee's Charter School Office personnel participate in the Florida Association of Charter School Authorizers, the National Association of Charter School Authorizers and the National Network for District Authorizers. District personnel are actively supported in membership and leadership in these organizations. This places Manatee County at the forefront in Charter School Authorizing in Florida and the nation. Manatee serves as a mentor charter authorizers in other Florida counties (Leon, Lee, Collier, Marion, Volusia, St. Johns and Osceola) in best practices and timely advice. Manatee's Charter School Office regularly participates in providing Professional Development for Florida Association of Charter School Authorizers, the Charter Support Unit Governance Conference and Florida Department of Education charter school related initiatives such as the Authorizer Summit and the Boot Camp for new authorizers.

If a charter school has a deficient mid-year or end-of-year review or repetitive and/or an unresolved compliance issue, absent a decision to non-renew or terminate the charter, a

Corrective Action Plan (CAP) must be jointly developed by the District and the charter school based on the following factors:

- (1) evidence exists of the school's willingness and ability to correct the deficiencies within a reasonable period of time;
- (2) the seriousness of the deficiencies which constitute good cause as set forth in the charter; and
- (3) whether the school within the last few years was under a corrective action plan for similar issues and whether it was in compliance thereof.

The charter school must then satisfy all of the CAP compliance issues as reasonably determined by the District. The District will approve, monitor and redress said corrective action plans, as well as provide technical assistance to the charter school. Charter schools are also subject to expedited reviews and corrective action plans under *1002.345, F.S.* and Rule 6A-1.0081, F.A.C.

(E) All charter schools must submit all reports as required by Florida Statutes or State Board of Education Rules, as amended from time to time, including Rule 6A-1.0081, F.A.C., in a timely fashion. All charter schools must submit timely reports and/or documentation as required by the District and/or the charter agreement in order for the District to perform its oversight functions. Examples of these required reports and/or documents that are required to be timely submitted include, but are not limited to the following: school improvement plan, facility certification, annual accountability report and financial statements.

(F) Charter schools are required to timely and fully comply with and respond to additional audit, review and investigation requests from the District, that are being conducted for a legitimate purpose; comply with all applicable District policies and procedures that are applicable per their charter or by law; comply with the provisions of *1002.33(11)(f), F.S.* to have certified teachers under contract prior to the start of the school year; comply with the requirements for governing board meetings, and timely submission of governing board meeting minutes to the Superintendent's designee. A Foundation for the benefit of the charter school and the management company/ESP for the charter school in relation to the school's activities also have the responsibility to timely and fully comply with and respond to additional audit, review and investigation requests from the District. The District may also refer investigations of complaints it receives relating to the charter school to the charter school's governing board, unless it involves the governing board or a governing board member's activity or requires immediate action relating to the health, safety or welfare of the students. In the event of a complaint referral the governing board will report its findings to the District. Investigations involving governing board members may be referred to appropriate legal authorities. Failure to comply with these requirements may constitute good cause for non-renewal or termination of a charter contract.

(G) In the event there are outstanding or existing issues impacting the operation of the charter school, or when a charter is deficient in academic performance, governance, or finances, or is in a financial emergency, the School Board will be notified in writing by the Superintendent/Superintendent's designee at the time the District is aware of the issue.

(H) If the District or the State concludes that a charter school has significant financial, governance or academic issues, the charter school principal or chief administrative officer and a representative of the governing body of a charter school that has a CAP shall appear before the School Board at a public meeting at least once a year to present information regarding the corrective strategies that are being implemented to address the issues. The School Board shall communicate at the meeting, and in writing to the charter school principal or chief administrative officer, the services and/or recommendations provided to the school to help the school address its deficiencies.

### **Standard 5 - Termination and Renewal Decision Making:**

The District shall adhere to s. 1002.33(8), F.S., and State Board of Education Rules when considering the nonrenewal or termination of any charter contract.

- In the event of a needed intervention, there has been clear communication between the district and the charter school allowing the school adequate time to clear any deficiencies.

## **Standard 5 - Termination and Renewal Decision Making:**

- All charter school renewals are based on objective evidence defined in their contract. Part of the renewal process includes a summary of the school's performance record and summative findings.
- Criteria for renewal criteria is shared with each charter school as part of the renewal process. Prompt communication is provided once the findings have been collected.

- The district notes personnel are available for questions and guidance.

## **Walton**

### **Sponsor Strategic Vision:**

- Walton County School District’s (WCSD) vision is to be recognized among the top school districts in the state of Florida and the nation – and this vision includes our charter schools. Therefore, our strategic vision for charter school authorization includes processes and principles that ensure high standards for application approval and school operation.
- WCSD holds charter schools accountable for student academic performance, while at the same time, respects the school’s autonomy and protects the students’ and public interest.
- The district reports it is 100% in progress with meeting its strategic vision.

### **Standard 1 - Sponsor Commitment and Capacity:**

- As part of our authorizing process, WCSD incorporates the following standards: Planning and Commitment to Excellence – WCSD has implemented policies, processes and practices that streamline our work toward stated goals, and we execute the duties efficiently when considering any charter school application. These processes and procedures ensure all applications are received and reviewed within the established timelines.
- WCSD employs district level administrators for all areas that are essential to charter school oversight including curriculum, instruction, assessment, school operations, performance management and accountability, law and school finance. Therefore, as any application is received, all necessary departments are represented in the review and approval process. We also provide professional development for the sponsor’s leadership and staff to achieve and maintain high standards of professional authorizing practice and to enable continual sponsor improvement.
- WCSD employs district personnel whose duties include areas that are specifically addressed in the charter application process. Therefore, these district personnel serve as part of an authorizing team to ensure all charter applications are reviewed and approved in a timely manner.
- The district maintains a constant culture of communication, collaboration and transparency with charter schools throughout the application process and future renewals.

### **Standard 2 - Application Process and Decision Making:**

- As part of our authorizing process, WCSD incorporates the following standards:
  - WCSD has a comprehensive application process including the provision of a charter school application information packet that includes the State of Florida Charter School Model Contract. The guidance also provides comprehensive application questions that elicit the information needed to evaluate the applicant’s plans and capacities and provides clear guidance and requirements regarding the application content and format. In addition, charter applicants are also provided with links to the Florida Department of Education Charter School website which provides additional resources and information to potential applicants.

- WCSD’s charter application process is open and well publicized and transparent; therefore, any applicant is well aware of each stage of the application and school pre-opening process.
- WCSD’s charter policies and procedures require all applicants to present clear and compelling mission statements, provide a quality educational program, demonstrate the capability to maintain a solid business plan including effective governance and management structures and systems. In the event an applicant proposes to contract with an educational service or management provider, we use due diligence to examine the performance and capability of the provider to operate a successful charter school.
- WCSD will only grant a charter to an applicant that demonstrates competence and capacity to succeed in all aspects of school operation. Therefore, our charter school review team (district administrative personnel) thoroughly evaluate each application and interview the applicant group to examine their experience and capacity to open and successfully operate a charter school.

**Standard 3 - Performance Contracting:**

- As part of our authorizing process, WCSD incorporates the following standards:
  - WCSD executes contracts with a legally incorporated governing board that is separate from the sponsor. Initial contracts are granted for a term of five years or longer. Periodic high-stakes reviews are held every five years or more frequently, if necessary, as mutually agreed by both parties. We require all material changes to be addressed through contract amendments.
  - The contract for a charter school states the rights and responsibilities of the school and the sponsor from pre-opening stipulations to potential school closure. The agreement addresses the school’s authority over educational programming, staffing, budgeting and scheduling. In addition, the contract states pre-opening requirements to ensure all health, safety and other legal requirements are met prior to opening.
  - Performance Standards – the contract delineates the performance standards the district will utilize to evaluate the school including verifiable measures of student achievement and the sources of the academic data to form the evidence base for ongoing and renewal evaluation. The agreement also discusses the sources of financial data that forms the evidence base for ongoing and renewal evaluation.
- Provisions for Education Service of Management Contract (if applicable) - if a third-party management company is engaged by the charter school for educational design and operation, the district will address additional contract provisions to ensure rigorous and independent contract oversight by the charter governing board.

**Standard 4 - Ongoing Oversight and Evaluation:**

- As part of our authorizing process, WCSD incorporates the following standards:
  - WCSD conducts contract oversight to evaluate the performance of each character school to determine renewal, potential termination and or any necessary interventions. All monitoring is in alignment with state, federal and local expectations while maintaining the school’s autonomy. School visits are conducted periodically during the school year to observe classroom instruction, review student progress monitoring data and to address any areas of concern that may have been noted. Charter schools are required to submit monthly financial reports and to present an annual financial audit

conducted by a qualified independent auditor. If any contract violation or performance deficiency is noted, the district charter school designee communicates the finding with the school leader and the governing board.

- WCSO recognizes and maintains that charter schools have authority over their day-to-day operations. Therefore, we collect any required information in a manner that minimizes the administrative burden on the school but ensures the performance and compliance information is collected with sufficient detail and within established timelines to protect students and the public interest.
- All charter agreements require that schools admit students through a random selection process that is open to all students, is publicly verifiable and does not establish undue barriers to application. Therefore, no students are excluded based on special education status, prior academic performance, socioeconomic status, parental involvement or English language barriers. All charter agreements ensure schools provide access and services to students with disabilities, homeless students, gifted students, 504 students and students whose first language is not English. Intervention - in the event of a contract violation or performance deficiency the district's charter school designee will provide a timely notice to the school that includes clear, adequate, evidence-based information.
- An annual report is produced that provides clear and accurate performance data for all charter schools we oversee. The report includes individual school performance data as set forth in the charter.

#### **Standard 5 - Termination and Renewal Decision Making:**

- As part of our authorizing process, WCSO incorporates the following standards:
  - The district will terminate a charter for good cause when clear evidence of significant underperformance or violation of law exists. In addition, a charter may be terminated to protect students' and public interests.
  - All renewal and non-renewal decisions are based on an analysis of a comprehensive body of evidence that is defined specifically in the charter contract. If an entity has achieved the standards and targets specified in the contract and the organization is fiscally viable and faithful to the terms of the contract and applicable law, the contract will be renewed.
  - The district charter contact communicates renewal information to all charter schools in a timely manner to ensure reasonable time to submit the renewal application and to remedy any finding that may have been addressed during the annual review.
  - The district charter school contact communicates regularly with charter schools regarding renewal timelines. In the event of termination or non-renewal decisions, all communication is consistent with timelines established in the contract. Any non-renewal or termination decision will include a written explanation of the reason for the decision and will be issued within a timeframe to allow parents and students to exercise choices for the upcoming school year.
